VOL. 51. VICTORIA, B. C., MONDAY, JUNE 19, 1911. NO. 142.

FOREIGN GUESTS ARE ARRIVING

BUCKINGHAM PALACE CENTRE OF ATTRACTION

Thousands Gather to Cheer Members of Royalty Who Will Attend Coronation

London, June 19.—The British capital last night was anything but Sabbath-like. Enormous crowds pushed through the streets, flocking toward the centre of the city to see the decorations of the buildings and streets, and catch a glimpse of the afternoon visitors. Apparently almost the whole of London's population of 7,000,000 turned out. Several hundred thousands jolted one and another for hours about St. James' park and Westminster Abbey, Trafalgar Square, Whitehall, Pall Mall, the Strand and Picadilly, and the streets were almost impassable for motor cars and cabs, and from time to time traffic was entirely stopped. Eastenders and working classes formed the chief elements. Everybody was in holiday spirits, the men and girls singing and chaffing. Buckingham Palace, where the royal ensign floats, was the centre of attraction all day.

A constantly shifting mass of people elbowed one another in front of it. Several times the crowds had an opportunity to cheer when some of the royal party drove in or out, while the constant arrival and departure of visiting royalty furnished repeated thrills.

While the majority of the foreign guests will arrive to-day, there were enough lesser princes and grand dukes on view yesterday to satisfy the population. The German cruiser Von Der Tann brought Crown Prince Frederick William and the German crown princesses to Sheerness, where the cruiser tied up. The prince and princess disembarked at an early hour and proceeded to London.

Dowager Empress Maria of Russia, who will spend the coronation period with Queen Mother Alexandra at Sandringham, arrived on Saturday.

The holiday-making last night did not strike the only note of Coronation Sunday. Religious services were held at St. Paul's in the morning and in the afternoon at Westminster cathedral, while a remarkable outdoor service was held at Batteresa park, and in all the churches special reference was made to the great ceremony to take place Thursday.

Contingents representing Canada, Africa, Australia, New Zealand, Jamaica and other colonies attended St. Paul's. The Canadians, number 1,100, General Cheylsmore commanding, with two bands, marched from the Duke of York's school through streets lined with enthusiastic spectators.

A heavy rain before Thursday would be regarded as a calamity, as it would work havoc among the flimsy cloth hangings and paper flowers strung profusely everywhere.

A score of King George's coronation guests accompanied by their suites, reached London this morning and with as many more from foreign countries and states due to arrive this evening, will complete practically the assemblage for foreign missions. John Hays Hammond, special United States ambassador, and his suite will be included in the latter arrivals, coming from Dover by a special train. Throughout the day special after special rolled into the different London railway terminals bringing in princes, special ambassadors and their suites from all points of the globe.

The streets presented an attractive appearance with a constant coming and going of the royal carriages with their escorts conveying the guests to Buckingham Palace and other places, and the private residences given over for the entertainment of the visitors.

The night-long work of the army of decorators served to enliven most of the streets in the centre of London. Flags gave a gala appearance which the intermittent rainstorms could not spoil. The decorations and illuminations are on a scale never before attempted in England and the demand for electric lighting is so great that the electric companies have served public notice that their capacity to supply the current had been reached and that they cannot undertake lighting.

Prince Henry of the Netherlands was among this morning's arrivals. The Duke of Connaught and other members of the royal family flitted from station to station to meet each newcomer.

The public appears smitten with the coronation fever. They throng the streets in such multitudes as to make progress anything but desirable for fashionable London.

WILL INVEST IN WEST.

Winnipeg, June 19.—A. Nesty, of Toronto, with a party of eastern capitalists, arrived Saturday. They represent a large amount of eastern capital and their intention is to invest in western land. They left for the east to-day.

DELEGATES ENTERTAINED.

Fort William, Ont., June 19.—The activities of the Women's National Council were transferred on Saturday from Port Arthur here, where the remaining sessions will take place. Saturday afternoon was spent in yachting, followed by a garden party for the delegates.

THREE MEN SHOT BY DESPERADOES

RAILWAY CONDUCTOR DIES FROM WOUNDS

Deputy Sheriff May Die—Ranchers Threaten to Lynch Bandits When Taken

Anacondo, Mont., June 19.—A third victim has been added to the list of those shot down by the two desperadoes who fled into the hills near the Montana-Idaho line yesterday after wounding Conductor William Kidd of the Oregon Short Line, and Deputy Sheriff Sam Melton. He is Edgar Magill, a ranchman, near Hamer, Idaho. Conductor Kidd died at 10 o'clock yesterday morning at the Pocatello hospital.

Magill was riding over his ranch when the bandits suddenly jumped from behind a bunch of sage brush and without warning opened fire. The first bullet found its mark above the heart and Magill fell from his horse unconscious.

Quickly following his advantage the bandit rushed to Magill's side and shot him again. Magill lay as if dead and the robber, brushing his body aside, seized the bridle and jumping on the horse rode off. He took Magill's gun and all the ammunition he could find.

Magill's father heard the shots and rushed to the spot where he had last seen his son. He found him unconscious and taking him back to the ranch summoned help and the wounded man was placed on a special train and brought to Hamer, and taken to Idaho Falls, where he is being treated.

The Oregon Short Line Railroad, through its vice-president, W. H. Rancroft, has offered a reward of $1,000 for the arrest of the men.

At a late hour last night Deputy Sheriff Melton, the first victim, was in a critical condition and little hope was held for his recovery.

Citizens all along the Short Line in both Montana and Idaho are turning out in strong numbers, determined that the men shall not escape. The shooting of Magill has aroused the entire territory and unless the authorities get the men first in the event of their capture, the ranchmen say there will be no need of a trial.

CANADIAN CADETS WIN RIFLE MATCH

Members Form Guard of Honor for Princess Louise—Scouts in London

London, June 19.—The Canadian Boy Scouts reached London yesterday. They will encamp at Rochampton House, Barnes, the home of Capt. Grenfell until July 8.

The Canadian cadets won the field rifle shooting match against Australians and the Church Brigade, for which $125 had been subscribed by Stock Exchange members. E. L. Kerr of Hamilton took first prize and Lt. Hagerty second.

Yesterday eight cadets formed a guard of honor for Princess Louise at the coronation church parade. The princess shook hands with Captain Hill, the commandant.

On coronation day the corps will be posted on constitutional Hill. On the following day they will take part in the Royal procession and Friday evening the Canadian cadets will travel to Portsmouth where during the great Naval review they will be guests of Col. Gwynn, formerly inspector of small arms in Canada.

SKIPPING PROVES FATAL.

Pittsburg, June 19.—Ollilos Danner, aged 6, died at her home in St. Clair borough, the result of a ruptured blood vessel caused by jumping the rope.

TWO KILLED IN AUTO ACCIDENT

Five Other Occupants Injured When Car Capsizes at Foot of Steep Hill

Toronto, June 19.—An auto carrying seven persons from Toronto yesterday afternoon capsized after descending a steep hill at Hawkestone, near Orilla.

Dr. Wilson Braidwood and Miss Florence Crawford were killed, and Mrs. Geo. Thompson and her two daughters, and Charles Bowden and N. C. Martin were injured.

With the exception of Mrs. Thompson and her two daughters all were employees of the Toronto Electric Light Company.

DOMINION TRUST CO.'S NEW BUILDING

Work has begun on the handsome edifice which the company is building at the corner of the Causeway and Wharf street, at a cost of $175,000. The plans were drawn by H. S. Griffith.

MILLIONS FOR NEW WATERWAY

CANAL FROM MONTREAL TO LAKE CHAMPLAIN

All Water Route Will Be Provided From St. Lawrence to New York

Ottawa, June 19.—The Lake Champlain and St. Lawrence ship canal company, which obtained an extension at this session of Parliament, has filed plans with the department of Public Works for 12 foot waterway connecting Montreal with Lake Champlain and New York. The canal will begin at Longueuil opposite Montreal and extend 21 miles to Fruers Island, six miles below St. Johns P. Q. It will cost many millions.

KILLS HIS WIFE.

Three Little Children Witness Murder of Mother and Attempted Suicide Of Father.

New York, June 19.—The three little children of Louis Kuickermeister were witnesses shortly after midnight of the murder of their mother, and their father's suicidal leap from the fourth story window of their home on the east side. Kuickermeister killed his wife by beating her over the head with an axe and then jumped from the rear window of their flat. He sustained a fractured skull and was taken to a hospital in an unconscious condition.

STEAMER ASHORE.

The Ben Ern Abandoned After Grounding in Fog.

Halifax, N. S., June 19.—The British steamer Ben Ern has been abandoned on Half Moon Ledge, 12 miles from Barrington Head. She went aground Saturday and was making water rapidly so that Captain Leonhart did not consider it safe to remain aboard her any longer. She will be a total loss. The Ben Ern was carrying coal to St. John, N. B., and got off her course in the fog.

The Ben Ern is under charter to the Dominion Iron and Steel Company, but is owned by the Straight Back Steamship Company, Ltd., of Glasgow, and is valued at about $225,000.

DIES FROM INJURIES.

Vancouver, June 19.—J. Locke died at the General hospital early this morning from injuries received in an accident on Saturday night. Locke happened to be crossing Cambie street bridge early on Saturday night when he offered to hold the horses of a cab driver while the latter extracted a nail from a foot of one of the animals.

The horses became frightened and bolted, the cab passed over Locke, according to report, and his spine was broken. He was removed to the General hospital, where it was recognized that his death was merely a matter of hours.

FIVE LOSE LIVES WHILE BATHING

Three Brothers Drowned in Ontario — Fatalities at Winnipeg and Regina

Winnipeg, June 19.—George Bakos, aged 15, a student at St. Boniface, who comes from Lethbridge, was drowned Saturday afternoon while bathing with a few companions. He was seized with cramps and was being assisted toward shore by one of his friends, but the pain of the cramp made him let go his hold on the other boy's shoulder.

Another Fatality.

Regina, June 19.—Wascana Lake claimed the first victim of the present season on Saturday when Karl Harsbeck, a Hungarian, 21 years old, was drowned while swimming east of Broad street bridge. Harsbeck was in swimming with a companion when he got into difficulty, and on his companion going to Harsbeck's assistance, caught hold of him and was dragged below the water. His companion with difficulty got free and made his way to shore. Before assistance could be brought Harsbeck had sunk for the last time, the body being recovered with grapling irons an hour later.

Three Drowned.

Parry Sound, Ont., June 19.—Three young sons of Thos. Fawcett, living 17 miles north of here on the Canadian Northern line at Shawnigan Station, were drowned yesterday, while bathing. It is thought that in endeavoring to save the youngest lad the other two went down. The boys were 16, 14, and 12 years old respectively.

HUGH KENNEDY

Manager of the Dominion Trust Co. and British Canadian Securities, Limited, for Victoria.

DOMINION TRUST BEGIN BUILDING

CONTRACTORS START ON HANDSOME STRUCTURE

It Will Rise Six Storeys From the Government Street Front

The Dominion Trust Company building at the corner of the causeway and Wharf street has been commenced, and next spring will see its completion.

From the plans of H. S. Griffith the structure will be a distinct addition to the architecture of the city, and will no doubt stimulate the rebuilding of that section of Government street. The Norton Griffiths Steel Construction Co., Ltd., has been awarded the contract, and guarantees to turn the building over complete in ten months. The preliminary work on the excavation of the site began a few days ago.

The building, as will be seen from the cut on this page, will be an exceedingly handsome one. It will have an elevation of six storeys on the street level and of eight storeys from the water. The entrance will be from the Government street front. The material will be reinforced concrete faced and finished with terra cotta, and will be absolutely fireproof. In interior finishings and furnishings the building will be most modern in every way. The offices, for which there are already many applications in, will all have outside light and from the unique position of the building will, of course, never be overshadowed. The cost of the edifice will be in the neighborhood of $175,000.

The Dominion Trust Co., Ltd., and the British Canadian Securities, Ltd., will occupy the whole of the ground floor, and the offices will be finished in mahogany throughout. Meanwhile Manager Hugh Kennedy and his staff will carry on the business of the two companies in the temporary offices recently fitted up at 909 Government street.

DIES ON HONEYMOON.

Ottawa, June 19.—Arthur John Lovell died suddenly of heart failure here on Sunday. He was on his honeymoon.

INVITED TO THE HAGUE.

Ottawa, June 19.—An invitation has been extended to officers of the Canadian militia to take part in the horse show to be held at the Hague, Holland, on July 2, 1912.

LIBERAL NOMINATED.

Woodstock, Ont., June 9.—Centre Grey Liberals on Saturday nominated P. McCullough to oppose Hon. I. B. Lucas at the next provincial election.

DEATHS FROM PLAGUE.

Amoy, China, June 19.—Eighty-three deaths from the bubonic plague and seven deaths from smallpox were reported in this vicinity during the past two weeks.

New York	3	8	1

Batteries—Wood and Nunamaker; Caldwell, Quinn and Sweeney.

TWO FREIGHT TRAINS COLLIDE

ENGINEER CRUSHED TO DEATH IN WRECKAGE

Two Brakemen and Conductor Sustain Injuries—Sixteen Cars Destroyed

Indian Head, Sask., June 19.—In a head-on collision between two freight trains at Winro siding, five miles west of here, about midnight, Engineer Pratt was killed and Brakeman Bradley had his back broken and may die; Brakeman Macintyre had his arm and nose broken and Conductor Pounder was also injured.

These were the crew of an engine and caboose, westbound, and all live at Moose Jaw.

An eastbound freight of 58 cars had orders to meet the light train at Winro, but owing to a heavy down grade and curve at that point the weight of the train and possibly the failure of the air brake to work the train, did not stop but crashed into the light train about 12 car lengths past the east end of the siding, just as that train was slowing down to take the switch. The headlight on the light train was not burning, it is stated.

Engineer Pratt did not jump in time and was buried under the cars of the other train, the trucks of one of the cars driving his head and legs into the ground.

Brakeman Bradley was on the platform between the engine and caboose ready to open the switch when the force of the collision threw him off the train, breaking his back. He is not expected to recover.

The crew of the eastbound freight all escaped, but 16 cars were derailed and so badly damaged that they were burned by the wrecking crew.

The injured were brought to the Indian Head hospital.

HEAT WAVE FOLLOWS RAINS ON PRAIRIES

Wheat Advancing Rapidly—Forty Thousand Harvesters Will Be Needed

Winnipeg, June 19.—Temperatures of between 80 and 90 were recorded all over the prairie west of here yesterday, the highest being 95 at Hamiota, Man. It was a sweltering night, the mercury remaining around 70. The intense heat, following plentiful rains, is bringing the crop along at wonderful rate and farmers are already facing the problem of unusually heavy straw and wondering where the forty thousand harvesters will come from.

MEXICAN CABINET.

General Changes Will Probably Be Made By President De La Barra.

Mexico City, Mex., June 19.—Before the end of this week there may be a change in the personnel in the cabinet of President De La Barra. From a reliable source it was learned yesterday that one or two ministers may be appointed with the idea of securing for the cabinet more men "who are in sympathy with the principles."

Francisco I. Madero and De La Barra have talked about the proposed change but it is understood that they have not arrived at a definite decision. It is possible the troubles may be tided over this week and the cabinet kept intact.

AVIATION CLAIMS MORE VICTIMS

TWO MEN BURNED TO DEATH IN MID-AIR

Another Aviator is Killed When Aeroplane Strikes Tree—Several Others Injured

Liege, Belgium, June 19.—The aviators who accomplished the perilous first stage of the European circuit race are resting to-day. To-morrow the second flight will be attempted.

Rain fell heavily, the weather being in keeping with the spirits of the airmen who are much depressed over the series of fatalities which marred the sport at its inauguration yesterday. News of freightful accidents preceded the aviators here.

Capt. Princetau and M. Landron were burned to death in mid-air following the explosion of their airships. M. Le Martin was crushed to death when his machine became unmanagable and struck a tree near Chateau Thierry, soon after the start from Paris. M. Gaubert and M. Bille fell and were seriously injured. M. Loridan, Oscar Morrison and M. Morin also dropped to the ground, but were less seriously hurt.

This morning word was received that a monoplane had fallen near Charleville. The identity of the pilot and the extent of his injury has not been learned.

Later word from St. Laurent throws doubt on the first report. It is now said an upknown aviator descended rather roughly in a field, but that he soon afterwards again ascended, apparently not much injured.

A report from Coissons, France, says that Gaubert's condition to-day is satisfactory, and unless there are unexpected complications his recovery seems assured.

Several contestants arrived here yesterday and eight others this morning. The latter had met with temporary mishaps, causing delays. They arrived here as follows: Kimmerling, 5.05 a.m.; Tabuteau, 5.85 a.m.; Prevost, 6.34 a.m.; Wynmalen, 6.40 a.m.; Amerigo, 7.42 a.m.; Bathiat, 7.54 a.m.; Gilbert, 8.20 a.m.

The second stage of the race is from Liege to Utrecht, 210 kilometres (130 miles), which will bring the successful ones a total of 342 miles from Paris.

Further details of the death of Landron have been received from Chateau Thierry. The aviator, who was 33 years old, was flying at a height estimated at from 1,800 to 3,000 feet, over the village of Epiedes, when suddenly the villagers were horrified to see the machine and aviator enveloped in flames. Then there was heard a faint report as of an explosion, and the ball of fire pitched earthward, turning over and over as it fell. The aviator was hurled from his seat clear of the flames, which streamed 50 feet behind the monoplane. The machine was still burning when the wreckage dropped into a wheat field. The body of Landron had struck the ground nearby. Firemen hurried to the scene, but the gasoline blazed away for a quarter of an hour after their arrival. Landron was already dead. Both legs and one arm were broken and the chin was shattered. His face had been scorched and his clothes were burned. The body was carried to the municipal building, there to await identification and the wishes of the unfortunate man's friends.

The race so unhappily begun is to cover a course from Paris to London and return, a total distance of nearly a thousand miles. The prizes aggregate $94,000.

Fifty aviators started, of whom 38 were civilians and 12 army officers assigned to the aviation service. The larger number never got beyond the limits of the manoeuvering field. Three were wrecked in the first stage of the flight and several were injured.

A great throng witnessed the start from the aviation field at Vincennes early yesterday morning, and the efforts of the police and soldiers to hold the curious crowd in check resulted in minor injuries to many.

TWO KILLED BY TRAIN.

New York, June 19.—Two more fatalities were on Saturday added to the already along list of deaths which have occurred at the Westbury station crossing on the Long Island railroad, known as "Death Curve," when a train smashed an automobile into kindling wood. The victims were Wilfred Jay, formerly editor of Whip and Spur, and C. J. Ross, the official photographer of the Meadowbrook Hunt Club. The accident occurred in full view of hundreds of handsomely gowned women en route to witness a fashionable polo game. Several fainted.

HON. R. LEMIEUX IN QUEBEC.

Montreal, June 19.—Hon. Rudolph Lemieux addressed the electors of Joliette yesterday. He barely touched on reciprocity but made a strong attack on Bourassa. Monk, Lavergne and the Nationalists, characterizing Bourassa's opposition as the "Cries of a fool disappointed in his ambition." Mr. Lemeiux said Nationalists' policy aimed of the isolation of Quebec. He also defended the Navy Bill.

COMING TO WEST.

London, June 19.—The Duke of Sutherland will reside all the summer on his estate at Brooks, east of Calgary.

YOU HEAR! When You Use
WILSON'S COMMON SENSE EAR DRUMS!

CONCESSION MADE TO SEWER WORKMEN

Made Possible for Under-Surface Men to Get a Raise of a Quarter

Although the city of Victoria has declined to raise the minimum wage of its workers from $2.75 to $3 per day it has not made it impossible for the city engineer, who is the head of that department of work, to make such increases to men whom he deems efficient enough to be getting more than the minimum. At the present time the men working above ground on the sewer system in the city get exactly the same as those working below, with the result that there is a rush for the former, and a positive "leanness" of the latter. It is usual in connection with such works for the men employed below the surface of the earth to receive two bits more than the other fellows, but somehow or other the practice has fallen into desuetude in Victoria. It is claimed, however, that up till the spring of the present year this practice was in vogue, but that when the minimum wage was increased the extra fraction for the under-surface men was forgotten.

It is of course generally admitted that the man below is worth the difference, and in future it will be possible for the city engineer to rectify the seeming injustice as far as he thinks fit and advisable. Even now the men working on the sewer construction of Fort street have a petition before the council asking that their wages be increased to $3, and while it is not probable that the men's wishes will be met entirely, in view of the recent resolution of the council, it is possible that that section of the men operating underground will get a raise of a quarter a day.

The ADVANCE MAN

Buffalo's Opinion of Edna Showalter.

Edna Blanche Showalter, who is coming to Victoria with Chevalier on June 22 and 24, sang in Buffalo a couple of months ago in the huge Convention hall, which seats over 4,000. It was Miss Showalter's first appearance in that city, and her success may be guaged by the following extracts from the notices of the two leading Buffalo papers.

The Express says: "Edna Blanche Showalter, the young soprano—and she is really young—is to be reckoned with as one of the coming great lyric sopranos. The voice is one of rare charm, fresh as the spring, sweet as the song of an Oriole. Miss Showalter has abundant temperament and much poise and intelligence, in addition to her fine vocal endowments. In her songs she was delightful. She has a distinctness of enunciation which is most commendable, and she possesses a range of tone color which surprises and fastinates."

The Courier adds: "Edna Blanche Showalter, the gifted young coloratura soprano, made her first appearance before a Buffalo audience and won an ovation. Her voice is lovely in quality and crystal clear. 'Far Off I Hear a Lover's Flute' was sung in a manner that was unforgettable, while the charm of 'The Moon Drops Low' evoked a storm of applause, the singer, as an encore, giving the waltz song from 'La Boheme,' to which she played her own accompaniment. In her second group of songs, which by the way were an enjoyable change from the usual hackneyed selections chosen by concert singers, 'A Ruined Garden,' by Arthur Farwell, was given with a fine appreciation of its superb character. The young American prima donna sang with authority and a dramatic delivery, which was intensely impressive, while the colorful, almost sensuous beauty of her voice, invested it with added charm."

John Drew This Week.

It might be supposed from the name of John Drews' new comedy, "Smith," which will be seen at the Victoria theatre on Friday, June 23, that Mr. Drew plays the title role. Such, however, is not the case. Smith is a young girl, a parlor maid, fresh-faced and fresh-minded, and the character is played by Mary Boland. The part was acted in London by Marie Lohr, a celebrated beauty of the English stage.

In the American production Miss Boland has been voted wholly artistic and charming. She is one of the principals, Mr. Drew being the other, in a unique and delightful love romance that runs through "Smith," in sharp contrast with the doings of the frivolous, heartless, irresponsible members of the smart set, who surround them. The play itself is a somewhat bitter arraignment of social follies, but it is absolutely free from preaching. It is the kind of piece that creates discussion.

—See J. N. Harvey's ad. on page 11.

FAVORITE WON THE VANCOUVER DERBY

"Seth" is of Derby Stock—Record Attendance at Minoru Park Saturday

Vancouver, June 19.—With perfect weather conditions, a fast track and a record attendance, the Vancouver Derby at Minoru park was won on Saturday by J. M. Schilling's "Seth," one of the best bred horses on the continent, being sired by Adam, one of the best sons of Flying Fox, winner of an English Derby.

Seth is trained by his owner, who is a brother of Carroll Schilling, America's premier jockey, and Jackey Keogh's well-judged riding had a good deal to do with the result. The colt was a strong public fancy and the totalizers paid $2 to the $1 to his backers. The results:

First race, five furlongs, selling purse $200; $40 to second, $20 to third. For three-year-olds and upwards. Hector, 1st, Eel, 2nd; Semproelle, 3d. Time, 1:01 4-5.

Second race, five furlongs, selling purse $200; $40 to second, $20 to third. For four-year-olds and upwards. Cheers, 1st; Juan, 2nd; Princess of Wales, 3rd. Time, 1:01 2-5.

Third race, 5 1-2 furlongs, selling purse $200; $40 to second, $20 to third. For three-year-olds. Twickenham, 1st; Canapa, 2nd; Eddie Mott, 3rd. Time, 1.08 3-5.

Fourth race, six furlongs, purse $200; $40 to second, $20 to third. For three-year-olds and upwards. Ada Meade, 1st; Cleopat, 2nd; Thistle Belle, 3rd. Time, 1.13 3-5.

Fifth race, 1 1-2 mile, the Vancouver Derby; $1,000. For three-year-old foals of 1908. Seth, 1st; Salall, 2nd; Bell Cliff, 3rd. Time, 1:56 4-5.

Sixth race, 1 mile, selling purse $200; $40 to second; $20 to third. For three-year-olds and upwards. Bonnie Bard, 1st; Irish Mod, 2nd; Matador, 3rd. Time, 1.42 4-5.

Seventh race, 1 mile, purse $100 and cup to the owner of the winner; for horses the property of Hunt Club members; welterweights, gentlemen riders; special allowances for half-bred horses. Hankweel, 1st; Metlakatla, 2nd; Creston Boy, 3rd. Time, 1:48 1-5.

OUR LETTER BOX

LEST THEY FORGET.

To the Editor:—There is a bold, bad man on the staff of the morning paper who has the astounding temerity to refer to "any shreds of reputation it (Times) may have been left." Such antiquated catering for the public recalls the palmy days of whip and pistol, when the Skibbereen Eagle threatened Bismarck to "keep its eye on him."

It appears the present trouble starts from the fact that the Times "won't talk," a charge also recorded against Mr. J. D. Rockefeller in the same issue of the Colonist. So you will understand, sir, you are, financially at least, in good company, and that the morning paper will, as usual, "keep an eye" (with a shade of green) on the Times. Now, if I was fortunate enough to fill the editorial chair of that journal I would plainly tell the Colonist I was ready to "talk" when it set a good example by coming out of the shade at the eleventh hour and ceasing to pepper the trail of criminals with sham "contemptuous silence."

L. L. D.—1908.

WANTS TO KNOW.

To the Editor:—Would you allow me a small space in your paper to enter a protest in regard to the proposed city pipe yard on Chambers and Queen's avenues? We were led to believe the city was to sell certain property. A by-law that is advertised now, and with the money to expropriate the Lion saloon and adjoining lots, $40,000, I believe, was the amount they figured this property would cost, seven acres in all. Mr. Potter is to get $21,000 for his property, two acres, and $4,000 for his saloon license. Now, Mr. Editor, can you explain how they propose to get the other five acres for $15,000, when the other two acres they propose to buy out of the general fund for $25,000? It looks as if somebody is very anxious to get rid of one saloon license at any old figure at all. Now, as a property holder, I believe it is up to the council to let the people know how much they can get for the property they propose to sell, and how much this pipe yard is going to cost us. Why not have it near the water front and do away with this double haulage? In regard to the streets they propose to close, Empress and Bay streets, the city has just recently put in the water mains in both. More money buried, and people have started to build. Ald. Morsby at least is not afraid to get up and say he has been misled in regard to this business. Where are the representatives of Ward 3? Thanking you, Mr. Editor, on behalf of a long-suffering community who have had it rubbed in long enough.

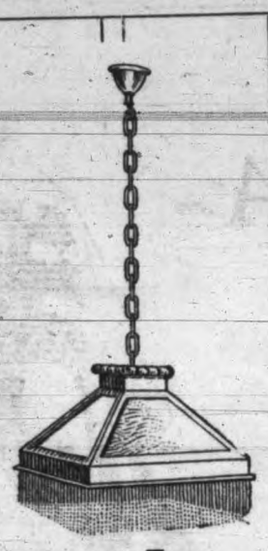
J. ECCLES.

Chambers St., June 19, 1911.

CELEBRATE SILVER WEDDING.

Washington, D. C., June 19.—President Taft and Mrs. Taft celebrated their silver wedding to-day. Twenty-five years ago William H. Taft married Miss Helen Herron at her father's home in Cincinnati. Mr. Taft was a young lawyer, Miss Herron had been a school teacher.

To-day in the White House they celebrated the quarter century of their married life, during which time Mr. Taft becomes a United States judge, commissioner of the Philippines, secretary of war, and now president of the United States.



The June Bride

YOUR gift to the JUNE BRIDE, if selected here, cannot but be one that will receive the highest appreciation. An Electrolier, Table Lamp, Bracket Lamp, whether you purchase the simple or the most elaborate, she would have a gift that would prove of splendid use as well as thoughtful admiration for the giver.

The illustration above, which is an Art Glass Dome, complete with fringe and pendant, is priced at $14. We make no charge for placing this into position. The art glass can be obtained in tints to suit the purchaser.

REPLICA OF GOWN QUEEN MARY WILL WEAR AT THE CORONATION

A REPLICA of the gown QUEEN MARY will wear when she and KING GEORGE V. are crowned is to be shown in our centre window To-morrow afternoon.

THE gown proper is a Princess robe of crimson velvet, close fitting, with high neck and a train of medium length. The entire front from neck to feet opens over the filmy front like a coat—the edges describing scallops finished by ermine. The sleeves are of three velvet puffs separated by narrow bands of ermine, and below the final band is a velvet point beneath which a frill of white lace falls over the arm and hand. Around the throat is a frill of plisse mousseline which stands out like a small edition of an Elizabethan ruff. This is the gown simple without court train.

THE court train is fastened on at the shoulders under a deep cape of ermine, is edged with ermine and embroidered at intervals with royal crowns in gold to the full length of its fifteen feet. It falls in graceful folds widening as it lengthens. It is embroidered with ermine and lined with white satin. This robe is very costly and gives an excellent presentment of what the Queen's appearance will be at the Coronation on June 22nd in Westminster Abbey.

DEMONSTRATION BY SUFFRAGETTES

Over Forty Thousand Women Parade Through the Streets of London

London, June 19.—The procession of suffragettes which traversed the streets Saturday evening prior to the meeting at Albert hall, was appropriately described by "General" Mrs. Drummond as the "greatest procession of women in support of the suffrage movement that the world has ever seen." From 40,000 to 60,000 women, according to varying estimates, marched in the five-mile procession which started at the Victoria embankment, which lies east of the bridge, and proceeded along the coronation route to Kensington.

Militant and non-militant suffragettes combined on this occasion, all question of caste was put aside and queens of those garbed to represent such characters as Boadacea and Aragona, Mary, Queen of Scots, and Queen Victoria, rubbed shoulders with fellow workers in the suffrage cause from the sweatshops of Whatechapel. Hundreds of historic characters from the early ages down to the famous Victorians, like Grace Darling, Jenny Lind and Mrs. Browning, were portrayed. Seven hundred women who had been imprisoned for the cause formed a striking feature of the pageant. They carried many lancers with banners and the suffragette colors. There were many Americans in the ranks. Miss Inez Mulholland rode at the head of the brigade. Gertrude Elliott, the American actress, was another parader. Miss Bryce, daughter of John A. Bryce, a member of the House of Commons, was at the head of one contingent. Other prominent women included Annie Besant, president of the Theosophical Society; Princess Dhuleep Singh, Mrs. William G. Cavendish Bentinck, Lady Francis Balfour, sister-in-law of the Unionist leader; Mrs. M. G. Fawcett, Mrs. Emeline Pankhurst and Miss Sylvia Pankhurst. One brigade was made up of women pipers in Highland costume, who played a stirring march at the head of the procession.

The leaders were jubilant at the demonstration, pointing out that for the first time the militant suffragettes and constitutional agitators had made common cause.

The meeting at Albert hall was enthusiastic. Mrs. Pankhurst, who presided, elicited loud cheers by the declaration that the demonstration proved that victory was close at hand.

WASHINGTON TRAGEDY.

Walla Walla, Wash., June 19.—The motive for the Tragedy at Milton Wednesday, when Mrs. Myrtle Kyle shot Joseph Harper and then killed herself, is set forth in letters left by the dead woman. But these letters are sealed to the public and the cause of the shooting may never be known. Coroner Folsom of Umatilla county, admitted over the telephone to-day that he had secured such letters, finding them in the woman's coat, but had turned them over to the county treasurer at Pendleton where they would remain and that they would probably never be made public. One of the letters, it is said, was addressed to the wife of the murdered man.

FATAL QUARREL OVER GAME OF CARDS

Miner, Repremanded for Making Mistake in Play, Shoots His Partner

Fairbanks, Alaska, June 19.—After a trivial quarrel over a card game, Gorisa Bakosevich, a Slavonian miner, Friday suddenly drew a revolver and sent four bullets into the body of Fred Sellers, champion lightweight wrestler of Alaska, killing him almost instantly. Bakosevich was arrested and was bound over to await the meeting of the federal grand jury on a charge of murder in the first degree.

Bakosevich came in from a wood choppers' camp yesterday, and last night engaged in a game of solo in the Imperial store. During the progress of the game the Slavonian made a lead that was not in accordance with the best rules of the game and Sellers, his partner, reprimanded him for it. The Slavonian became angry and threw the chips in Sellers' face. Sellers reached across the table and struck at Bakosevich. The Slavonian walked toward the door, pulling a gun from the scabbard as he went. Suddenly whirling around, he fired four shots, every one of which hit its man. With three bullets in him, Sellers jumped behind a door for protection when another leaden missile came crashing through the timber and lodged in his right side just above the stomach. Bakosevich was disarmed and arrested by the others in the game.

ANTI-CORNER REGULATIONS.

Chicago, June 19.—A more drastic anti-corner rule than ever has been in force here was adopted by the Chicago board of trade. The rule is the outgrowth of the recent investigations by the board into the alleged manipulation of wheat.

The rule provides that the event of a default a committee appointed by the President shall determine as near as possible the real commercial value of the grain as a basis for settlement.

ELECTRICIAN'S REVENGE.

Alleged to Have Attempted to Electrocute Foreman Who Critized His Work.

New York, June 19.—Arthur Van Riter, forman of the General Electric Company, Harrison, N.J., Saturday accused James M. Finnegan, an electrician, of trying to electrocute him. He says he criticized Finnegan's work last Thursday and alleges that the subordinate threatened then to get even. Later he says, he went to get a drink and got a shock which paralyzed his right arm and crippled his right leg so badly that he is hardly able to walk. He is just out of the hospital. Upon making a search he found a wire connected with the water faucet. Finnegan protested his innocence, but was held under $300 bail for the grand jury by the justice of the peace.

CIVIL SERVICE EXAMINATION.

Ottawa, June 19.—M. Andrew, of Victoria, was successful in passing the preliminary civil service examinations for outside service, held May 9.

CARDINAL GIBBONS SCORES SUFFRAGETTES

Declares the Proper Place for Women is in the Home

Baltimore, Md., June 19.—Cardinal Gibbons scored women suffrage in an address here. At the commencement of the exercises of St. Joseph's college, he said: "I think the place for women is in the home. Women should not want to vote, but if they took proper interest in affairs of their husbands and brothers they could easily have them cast their ballots right. By doing this women will be the champions what is right."

Recent experiments in France indicate that mushroom poisoning can be cured by a serum prepared in a similar manner to diphtheria or rabies anti-toxins.

Notice to Advertisers

Owing to the rapidly increasing circulation of the Times and the growing demands for space, it has become absolutely necessary to place a limit upon the time at which changes for advertisements will be accepted and guaranteed publication. Copy for changes must be handed in to the business office not later than 3 p. m. the previous day.

Arrangements for the insertion of new advertisements must be made before 10 a. m. day of publication. Classified advertisements before 2 p. m.

The above rules are made for the benefit of readers of the Times, who insist upon the paper being delivered as early in the evening as possible.

FIGURES AND DEDUCTIONS.

Industrial Canada, the official organ of the Manufacturers' Association of Canada, courteously calls the attention of the Times to an article appearing in this column six weeks ago and alleges that the Times then based deductions on the figures of a pamphleteer which would not have been trusted had the correct figures been before us. It then presents us with reliable figures and proceeds to draw a set of conclusions which it believes controverts the argument of the Times. A courteous critic is always entitled to courteous consideration, and for this reason the Times reverts to its former argument. It is also unmoved from the position it took at that time.

The article questioned appeared in the Times on April 27 and was intituled Canadian Factories. The statistics used disclosed the fact that there were fewer factories in Canada employing five hands and over in 1905 than in 1900—accepting the correction as to dates which Industrial Canada suggests. The whole argument of the article was to show that the working classes in Canada had not benefited proportionately with the manufacturing concerns. It was shown how combinations, mergers and associations had enabled the manufacturer to reduce the number of artizans, cheapen the cost of production, uphold the market prices of products and increase the output, without a corresponding benefit to the employees.

Industrial Canada publishes a statistical table taken from the Government Census Report on manufactures and, without attempting to argue the correctness of the figures which we used in the first instance, we accept those of Industrial Canada, and, from them, will establish the argument originally set forth. The tables of Industrial Canada show increases in employees, wages, capital invested, and, in value of products for the years 1900 and 1905 respectively, and are here shown:

	1900	1905
Employees ...	339,173	383,920
Wages	$113,249,350	$162,155,578
Capital Invested	446,916,487	833,916,155
Value of Products	481,058,375	706,446,578

A brief analysis of this table shows that the wages of employees increased during the five years in a ratio totalling approximately twenty-five per cent. It shows also that the producing power per man increased proportionately or in a slightly increased ratio. Thus producing power and earned pay of man and man have practically kept pace in the advance. The increased amount disbursed as wages is, as Industrial Canada says, forty-three per cent., but it took fully sixteen per cent. more men than were at work in 1900 to bring up this percentage wage total in 1905. These conflicting percentages will show just what the Times contended, that the advantages to workingmen under a protective tariff have not kept pace with the advance in other respects.

Industrial Canada points out that the increase in the amount of capital invested in industrial enterprises is seventy-five per cent. during the period under review. This increase has not been expended in men or wages but in plant and machinery. It has enabled sixteen per cent. more men to produce twenty-five per cent. more value and the increment on this increased value of production—and every part of it—has gone, not into the pocket of the producer, but into the coffers of the manufacturers. Relatively the workman is not any better off, while the manufacturer has profited an additional nine per cent. on his investment.

Industrial Canada says: "One factory employing a thousand men is worth more to the country than five employing a hundred each." We should think so, but we note that no claim is made that one factory employing one thousand men is better than five factories employing two hundred men each. Why this disingenuous sophistry on the part of Industrial Canada? Can it not establish its contention without juggling with figures? Is it in the same class as the "pamphleteer" by whose figures it says the Times was misled? Five factories employing two hundred men each are of far more value to a country than one factory employing one thousand. The reason is so obvious that we can suspect why it is suppressed by the organ of the Manufacturers' Association. Five factories could not be so easily controlled in the matter of competition, and where there is play for competition the wage scale strikes a more normal average between cost of manufacture and selling price of products. The competition does not permit the corporation to bleed the workingman, keeping his wages low in order to secure enormous profits. But hive one thousand men under one factory roof and "the country is benefited" by exactly the amount the manufacturer can squeeze out of the public in decreased wages and increased selling price of product.

We quite rejoice with Industrial Canada in the increase, both in capital invested and increased value of products. These are hopeful and comforting reflections, but the black spot on the situation is the fact that the tariff which enables the manufacturer to rejoice in these things does not admit the laborer and skilled mechanic to a like share in the prosperity. The same tariff goes farther and taxes the cost of living to the laboring man in order to make possible a similar increase in the cost of foodstuffs he has to buy. We shall be glad to read the criticism of Industrial Canada on the deductions we make from the figures which it has submitted as authentic. We think they amply sustain the contentions of this paper in its article on Canadian Factories.

INDISCREET.

The morning paper never knows when it is well to let well enough alone. Yesterday it said: "Our evening contemporary, detected in two falsifications in connection with statements attributed to the Colonist by it," neither offers excuse, professes some regret or makes explanation. The Times would be sorry to have the Colonist readers believe this, because it is not in accordance with the facts and it was with mere regard for the reputation of an already much discredited contemporary that it passed the incidents over. The facts are that the Times charged the Colonist with piecing together two separate articles from different papers in supporting its criticism of the Quebec bridge contract. The Colonist denied this and stated that it had quoted exclusively from the report of the British firm of bridge builders making the complaint. The editorial quotations which the Times saw were in two different papers, each of which apparently used a part of the report in order to make its point. The Colonist article quoted the entire grouch of the British firm which failed in its tender in order to make a double-barrelled complaint. That is the explanation. It is now for the Colonist to explain why it quoted an ex parte statement of an unsuccessful firm when it had before it an official statement made by a Conservative paper after careful inquiry into the facts. British courts make a specialty of hearing both sides. The Colonist had both sides before it and chose to represent to its readers that there was only one side and it even magnified its offence by stating that no satisfactory explanation could be offered. There could be no other side. The Colonist has invited this damning indictment of its canting hypocrisy and we are quite willing to leave the matter of our journalistic reputation to the jury, which is the public. The other item of which the Colonist complains was that we held it responsible for a quotation from the Montreal Witness. We did, and were quite right in doing so. It quoted the Witness to support a criticism of Sir Wilfrid Laurier and therefore made the Witness's paragraph its own. The trouble with the morning paper is that it is so profuse in its quotations. When a good thing appears in its columns, no matter where it got it, the Colonist takes the credit. When its opinions are called in question or it is faced with the logic of its words it sneaks under the cover of a quotation and disclaims responsibility. It did this in two instances last week. The Colonist is so wobbly and unsteady on its pins that even the Mail and Empire was fooled into supposing it to be a supporter of Sir Wilfrid Laurier, which fact, by the way, has been charged up to the Colonist by many provincial papers and has yet to be "explained, regretted or excused." The Colonist will be made aware some day that "the way of transgressors is hard!"

Bishop W. L. Mills, of the Anglican Diocese of Ontario, and J. H. Forrest, principal of Dalhousie University, have expressed their disbelief in the annexation bogie which is so large a part of the equipment of the opposition to reciprocity in this country. Bishop Mills, addressing the Anglican Synod of Kingston, said: "There are some men going about singing of blue ruin that is coming to our country through reciprocity with the United States. Whether it would be in the general interest of the country is a question for debate, and about which different opinions may be held. Politicians have not devoted their attention so much to a discussion of this question, but in ringing changes on the cry that if reciprocity were adopted it would be the first step toward annexation, that the United States would be buying us and we would be selling ourselves. I think that is the greatest nonsense that ever came from the mouths of supposedly sane men. As a Canadian I resent it. I would think little of my loyalty to the British Crown and Empire if it depended on tariff schedules. Those who think the natural spirit of Canadians such that her existence as a nation would be imperilled by an increase of trade with the United States certainly do not know them." Mr. Forrest said: "Throughout the Anglo-Saxon race we do not want war. I say that both in the United States and Canada there is a marked change in feeling. Our neighbors do not want annexation, either in Mexico or Canada, and we do not want it."

• • •

Whether the Board of Directors of the B. C. Fruit Growers' Association violated their prerogatives or not in passing a resolution opposing reciprocity, the Kootenay fruit growers are evidently not very much alarmed. The following telegram, published in a contemporary, shows that they can afford to take the matter suite complacently:

"Remarkable increases in fruit land values in the Kootenay are shown by the sale of H. M. Foster's ranch on the Kootenay lake to W. G. Hunter of the great English shipbuilding firm of Swan, Hunter, Wigham and Richardson, of Newcastle-on-Tyne.

"For fourteen and a half acres eight thousand five hundred dollars cash was paid, bringing the value of the twenty-five acre block which Mr. Foster purchased from the government for one dollar an acre in 1893 to $25,000, or one thousand dollars an acre, a thousand-fold increase.

"Included in this block is the ranch recently sold by Dr. Clayton for four thousand five hundred. Another block sold for four thousand and a ranch conservatively estimated to be worth eight thousand."

Whatever our differences as to political policies may be at times, and however rude, at times, the strenuous terms of debate may wax we conceive that it will be generally admitted by all good Canadians of every political complexion that Sir Wilfrid Laurier is a statesman of whom Canada may rightly be proud. When the history of our nation comes to be written a century hence, the lustre of his name will not be overglowed by any of the makers of his country. We are, therefore, inclined to resent the indecent slur contained in the last sentence of the following quotation from the Toronto World (Conservative):

"When the pick of Ontario's boys appear in London the people there will not bother about what wet blanket Laurier throws over the conference. They will see the young sons of the blood, and their hearts will warm to the far land that breeds such bonny lads. The future of Canada is with these boys, and their brothers, and the cousins they will lure back across the Atlantic to build the auroral Britain of the west. Sir Wilfrid's monument will be no hindrance to them then."

"The agricultural department at Victoria is now taking an active part in Dominion politics. On stationery printed at the public expense the British Columbia Fruitgrowers' Association, being a branch of the department of agriculture, has sent out a circular deploring reciprocity in fruit. It is a curious fact that although various meetings of fruit-growers have been before the country no resolutions in opposition to it have been adopted. Nor is there any authority for the circular being sent out in the name of the British Columbia Fruitgrowers' Association except that of the board of directors of that association. The circular was not authorized by any general meeting of the association but by the directors alone. As I have said the circular has been printed and mailed at the public expense. If the Dominion government sought to meddle in any provincial issue what a howl would go up from the Bowser government about federal interference, yet here is a straight case of the provincial government appropriating public money to take part in a controversy over an issue raised in the Dominion House. Party politics is being carried to an extreme in this province and it is time the tendency was checked. Not only is every administrative function of the government prostituted into a vote grabbing organization, not only are the newspapers of the province regularly and systematically bribed with public money to support the government; not only does the government maintain at the public expense a boost bureau of its own from which all sorts of laudatory slush about Premier McBride is regularly sent out to the provincial press, but the government is now deliberately violating a very important principle of democratic government by using public funds to take part in a campaign in which it has absolutely none but a partizan interest. It is a pretty good government that can mind its own business and it would seem the local government has plenty of fences of its own to mend without plunging into a partizan fight in which it has no business to meddle and for which it is using public funds it has no right to use."—Saturday Sunset.

Only Two More Days

Of Holiday Buying Before Coronation Day. Special Display of Holiday Wearing Apparel at Very Attractive Prices in all Departments

Cream Poplin Skirts, Reg. $6.50, to be sold for $2.90 each, Tuesday

To the woman who wants something new, something stylish, and at a moderate cost for the holiday festival, these skirts should fill the bill to her perfect satisfaction. They are neat, smart and appropriate for the occasion, are plain gored styles with pleat at each seam, knee band of same material cut on the bias and trimmed with covered buttons. DECLARATION OF LONDON.

Agreement Condemned at Meeting of British Admirals in London.

London, June 19.—A score of prominent British admirals met this afternoon under the presidency of Admiral Lord Charles Beresford and unanimously condemned the "Declaration of London," the international agreement governing prizes of naval warfare, adopted at a conference of the chief naval powers two years ago.

STRIKE SPREADING.

London, June 19.—The seamen's strike is spreading among the dockers in the north and the coasting trade on the Clyde and Tyne is threatened with a temporary tie-up.

The stewards of the White Star liners Megantic, Celtic and Dominion, and the Allan steamer Virginian, all at Liverpool, quit to-day.

"IT'S THE WATER"

GREAT CONGESTION IN POLICE COURT

Many Cases Remanded — Magistrate Jay Remarks on Busy Solicitors and Clients

Congestion of business in the police court owing to the hearing of the charges against C. J. V. Spratt, Wm. Houston, Jno. Day and Oliver Richards, which will probably occupy the whole of this week, resulted this morning in several cases being again set over.

City Prosecutor Harrison asked that alternate days be taken for the navy cases and for the regular police court business, but counsel for the defence in the navy cases objected, holding they had the right of way.

Magistrate Jay remarked that alternate days would be unsatisfactory for him to hear the navy yard cases, and Ald. Moresby suggested that a second police court be instituted to be presided over by two justices of the peace.

There are severad cases now on the remand list and police court solicitors anticipate heavy business before the present listed docket is cleaned up.

"There are too many of these important cases remanded to oblige counsel," said Magistrate Jay after forty minutes had been occupied in hearing applications for remands. The magistrate held that if solicitors are so busy in other courts the parties appearing would do well to obtain other legal representatives.

Awarrant was issued for the arrest of Wm. P. Nicholls, who is charged with assault and did not appear. H. Clark, whose horse destroyed a boulevard, was fined $5. J. M. McCackell, a vagrant, was given an opportunity to get out of town. Thos. Wilson, another vagrant, went to jail for one month. J. Buchanan, on an old assault charge, was remanded, and a charge of leaving a wagon obstructing the street laid against Copas & Young was not heard owing to irregular service of the summons.

CHURCH IN CAMP.

Yesterday afternoon the Fifth Regiment band gave an excellent concert at headquarters, assisted by E. Petch, who sang. Many people attended and the programme was much enjoyed.

In the morning a drum-head service was conducted by the chaplain, Rev. T. R. Henage.

This week the instructional gun practice will be carried out. To-day No. 2 company will practice on the one-inch guns, No. 3 will carry on battery practice with blank cartridges, and No. 1 will practice aiming with ammunition. The same operations will be carried on to-morrow.

On Wednesday No. 3 will fire from the twelve-pounders at a target moored in the straits. The other two companies will have the same orders as to-day.

—Victoria has been selected as the meeting place of the I. O. O. F. grand lodge of B. C. for 1912.

—P. Burns & Co., Ltd., Thursday June 22, Coronation Day, our stores will be closed all day. Open Wednesday evening till 9:30. P. Burns & Co., Ltd.

ANOTHER ORDER FOR THE PAVING COMPANY

Received Instructions to Start Curb and Gutter Work on Certain Streets

The Canadian Mineral Rubber Company may be the slickest organization that ever was once they get into their stride, but it is a painfully obvious fact that they are very slow starters. Of course anticipations based upon verbal promises are not the sort of things to bank upon, and therefore much of the disappointment that is being experienced is no more than due. Up till now only curb and gutter work has been started, and little more can even be attempted on account of the fact that the asphalting plant is not yet within the city. A few days ago the cement mixers arrived, and were installed along with the other gear at headquarters.

A few weeks ago, when the civic impatience was less pronounced than it is now, Mayor Morley made the pointed suggestion that the work had not been started because no notification or order had been given by the city engineer. The object of that suggestion, apparently was to shield the company at the expense of the city official. That it miscarried, however, is now patent to everyone. Notice has been given to start and several orders have been issued, but still the curb and gutter play goes on. Last week the company stated that they would have the contract in operation in a few days, and it is believed that before the end of the present week they will have implemented that promise.

On Saturday the company received notice to start curb and gutter work on the following streets:

Cornwall street, from Richardson to Fairfield road.

Pendergast street, from Vancouver to Cook streets.

Broughton street, from Douglas to Cook streets.

Broughton street, from Blanchard to Quadra streets.

Blanchard street, from Pandora to Burdette avenue.

Johnson street, from Douglas to Cook streets.

Government street, from Discovery street to Hillside avenue.

Bay street, from Bridge to Douglas streets.

Quadra street, from Pandora to Hillside avenue.

Courtney street, from Quadra to Douglas streets.

Hillside avenue, from Douglas to Prior streets.

WEATHER BULLETIN.

Observations taken 5 a. m., noon and 5 p. m., Sunday:

Temperature.

Highest	63
Lowest	47
Average	55

Bright sunshine, 13 hours 12 minutes.
General state of weather, fair.

VICTORIA BOY SCOUTS.

Commissioner's Orders for Coronation Day Parades.

Deputy Acting Commissioner C. H. R. Slingsby has issued the following general orders to the Boy Scouts for Thursday next:

V. B. S. will parade on Belleville street south of Empress hotel at 11 a.m. Scouts who are taking part in Beacon Hill parade of school children must ask permission of their teachers to leave in time for this parade.

After this they will march to the place allotted to them in Parliament Square on left of Fifth Regiment band, and in rear of cadets—in close column—to take part in the official ceremonial. They will then be dismissed.

They will assemble in the afternoon at 2 p. m. as follows:

Band and troops 1 to 10 on Humboldt, east of Douglas.

Bugle band and troops 11 to 15, sidewalk, Douglas, south of Humboldt.

Remainder on sidewalk, behind 15.

Equipment, regulation uniform with staves—accessories optional.

Scouts from a distance or not wishing to go home between parades should bring lunches in their haversacks and fill water bottles. At the second parade the senior scoutmaster in length of service in each troup will take command of that troup.

Scouts deficient in uniform must see this is rectified before Thursday. This only applies to essential uniform and not accessories.

Scoutmasters are advised to carefully read details of arrangements for coronation day in the newspapers.

—The upsetting of an oil lamp in the rear of Munday's Shoe store, Government street, on Saturday, caused considerable excitement and gave an excuse for calling out the fire brigade. The threatening lamp was simply thrown into the yard.

—See J. N. Harvey's ad. on page 11.

AQUATIC EVENTS RUN OFF WITHOUT HITCH

Motor and Sailing Boat Races on Saturday — Breeze Was Too Light

Although there was hardly enough breeze for good sailing the motor boat and yacht races of Saturday, the former under the auspices of the Oak Bay boat club and the latter for the Pigott cup, open to members of the Royal Victoria Yacht Club, were sailed without a hitch. Neither were very exciting, in the one case the Debilo, owned by C. L. Harrison, finding little difficulty in beating its competitors to the finishing line, and in the other the Truant, owned and sailed by Walter Adams, taking the lead soon after the start and keeping it.

In spite of the fact that there was only one event on the programme, quite a large crowd had assembled at Oak Bay, and with the Fifth Regiment band stationed on Turkey Head, discoursing sweet music, almost as gay a time was enjoyed as on the occasion of the regatta a week before.

There were six entries and A. J. Dallain, judge and starter, got them off precisely at the schedule times. The course was from a point between Turkey Head and Mary Island to a point about half way to Ten-Mile Point, where each captain landed to secure a flag, and back again to the starting place. The handicapping was based on the performances of the boats in the run from Victoria harbor to Oak Bay last Saturday, and was very fair, but the fact that the Debilo, a small craft with a great capacity for speed, was running with her muffler off, was not taken into consideration, and as a result that boat won by eight or nine lengths. The struggle between the Glavota and the Louis for third place was the most thrilling part of the race.

The boats, with their respective times, were: 1st, Debilo, C. L. Harrison, 26 minutes 40½ seconds; 2nd, Curlew, W. F. Burton, 31 minutes 44 seconds; 3rd, Gaviota, W. Christie, 38 minutes 35 1-5 seconds; 4th, Louise, Dr. D. B. Holden, 38 minutes 93 seconds; 5th, Gladys, Mr. Pue, 44 minutes 22 seconds; 6th, Bubble, Mr. Payne, 36 minutes 24½ seconds.

After the race the prices, which were both valuable and useful, were presented by Mrs. S. R. Newton. The first consisted of an Apple dynamo, donated by the Victoria Yacht Club; the second of a brass launch horn, the gift of the Hinton Electric Company, and the third of a number of motor boat lanterns.

For the Pigott cup, there was no handicapping, and of the seven entries three—the Truant, the Oneida and the Dorothy—got off in a bunch. The Oneida and the Dorothy had the windward berth from the start, but the Truant worked out under their lee, and, taking the lead, held it without difficulty.

The times made by the boats was: 1st, Truant, W. Adams, start 3, finish 4.54.40; 2nd, Oneida, W. A. Turner, start 3, finish 5.09.10; 3rd, Dorothy, W. H. Langley, start 3, finish 5.12; 4th, Clytie, Guy Temple, start 3.01, finish 5.16.50; 5th, Varuna, H. Barnes, start 3.06, finish 5.1.30. The Ailsa, ex-Commodore Cuppage's boat, did not start.

B. B. Temple acted as judge and starter.

SENIOR CHAMPIONS BEATEN BY WESTS

Added Strength of Green and White at Last Having Its Effect

The added strength of the Victoria West lacrosse team, owing to the infusion of new blood from outside points and from the defunct Cloverdales, is at last having its effect, if the result of Saturday's match, in which the green shirts defeated the Wards for the first time in many moons, is anything to judge by. During the last two quarters the victorious Wests were irresistible, the lads in blue and white being literally carried off their feet by the onslaughts of Clute, Sam Lorimer and Leo Sweeney. There was no stemming the tide, and although the Wards were one in the lead at half time the score ended 6 to 3 against them.

The sudden and unexpected reversal of form shown by the Wests may largely be attributed to the addition of several new men and in particular Stanley Okell and Sam Lorimer. The acquisition from New Westminster of Clute, who has already shown that he is a home player of great ability, and the work of Leo Sweeney were also in a great measure responsible for the victory. Then there were two youngsters, Alan Clark and Sam Tuohy, recruited from the intermediate ranks, who more than made good.

In the first two quarters the Wards had a trifle the best of it, Everett Taylor who took Koeger's place at third home, showing up prominently and scoring the first goal. At half time the score stood 2 to 1 in favor of the Wards.

With the beginning of the third quarter session the Wests woke up and not until Referee Moresby's whistle ended hostilities was there a cessation in the attack on the Ward citadel.

Leo Sweeney started the downfall of the champions by taking the ball from the face-off and, without any assistance, boring through the Ward defence until within reaching distance of the goal and shooting the rubber into the net. After this there was no stopping the Wests and four goals followed in fairly quick succession.

The summary: First quarter—Taylor, North Ward, 14½ minutes. Second quarter—Carss, Victoria West, 3 minutes; McGregor, North Ward, 8 minutes. Third quarter—Leo Sweeney, 4 minute; Carss, Victoria West, 5 minutes. Fourth quarter—Taylor, North Ward ½ minute; Carss, Victoria West, 4½ minutes; Lorimer, Victoria West, 9 minutes.

Penalties: First quarter — McDonald, North Ward and F. Sweeney, North Ward, 5 minutes. Second quarter—McDonald, North Ward, 3 minutes. Third quarter—Jenkins, Victoria West, 5 minutes. Total time off—North Ward, 13 minutes; Victoria West, 5 minutes.

Referee: W. Moresby.

The teams lined up as follows:

Victoria West—Goal, Clark; point, Clegg; cover point, Morris; 1st defence, Styles; 2nd defence, S. Okell; 3rd defence, Redgrave; centre, Sweeney (Leo); 3rd home, Carss; 2nd home, Jenkins; 1st home, Tuohy; outside home, Clute; inside home, S. Lorimer.

North Ward—Goal, Phipps; point, F. Sweeney; cover point, Joe Dakers; 1st defence, "Doc" Noel; 2nd defence, D. A. Dakers; 3rd defence, McCarter; centre, Humber; 3rd home, Taylor; 2nd home, J. Johnson; 1st home, L. McDonald; outside home, McDougall; inside home, McGregor.

SHOOTING AT CLOVER POINT ON SATURDAY

Regiment Being in Camp the Attendance was Small—Fair Scores Made

Owing to the Regiment being in camp the attendance at the Rifle range on Saturday afternoon was much below the average. Shooting conditions were good and some very fair scores were made, Sergt. Smith, with 97, winning the spoon in the first class and Lt. F. A. Robertson, 97, that in the second. Gunner Berry has earned promotion from third to second class. The principal scores were:

First Class.

	200	500	600	Ttl
*Sergt. Smith	31	34	32	97
Sergt. Carr	33	34	30	97
Sergt. Birch	32	34	28	94
Sergt. A. Richardson	29	31	33	93
Gnr. W. Winsby	31	32	30	93
R. S. M. Macdougall	30	34	28	92
C. S. M. Caven	32	32	27	91

Gunner Berry	28	31	20	79

*Spoon Winners.

CHAMPIONS' CLOSE CALL.

Vancouver, June 19.—In a match in which the result was in doubt right up until the gong clanged the signal for the cessation of hostilities, New Westminster, champion lacrosse twelve, defeated the Vancouvers at Queen's park on Saturday by a score of 5 goals to 4. It was the closest call the Minto cup holders ever had.

It was the second time this season that only one goal margin has separated the teams in their matches in the Royal City and it was another of those matches in which hard checking, combined rushes by both teams and sensational saves by the opposing goalkeepers were the features.

—See J. N. Harvey's ad. on page 11.

VICTORIA CAPTURES ONE FROM BEAVERS

Islanders Break Even on Saturday—Starkell Pitches Team to Victory

Vancouver and Victoria broke even in Saturday's double-header, the Islanders winning the afternoon contest, 6 to 2, and the Beavers coming off victorious at night, 5 to 3. In the first game Cates was hit hard in the seventh inning and was replaced by Clark, who also suffered at the hands of Victoria. The tables were turned in the twilight affair and Vancouver had no difficulty winning the game. The scores were:

AMATEUR BASEBALL.

Three Games on Saturday Afternoon—Senior and Junior.

Owing to the fact that the lacrosse teams had possession of the Royal Athletic grounds only one of the senior baseball games slated for Saturday afternoon, that between the Prides and the Bays, was played. The former gained a rather easy victory by a score of 13 to 7. The batteries were: Prides — Holness and Robertson; Bays — Spence, Steenson and Tuson.

At the North Ward park the Ward juniors defeated the East Ends 15 to 14. The batteries were: Wards—Lane and Williams. East Ends—Hawke and Robertson. Umpire Surplis gave satisfaction to both teams.

In a fast and interesting game played at the Beach diamond the Badgers downed the Juvenile Tigers by a score of 13 to 8. The batteries were: Badgers—Gordon and Irving. Tigers—Travis and Copas.

It is likely that the postponed senior game between the Hills and the Giants will be played off on Wednesday evening.

ABOUT BASEBALL

A new pitcher, Williams, has been secured by Manager Wattelet from the Sacramento Coast League team.

• • •

The rejuvenated Giants put another one over on the ambitious Tigers at Seattle on Saturday, thus taking the series, the first the Tigers have lost in several weeks. Score, 6 to 5. The Lynch brigade, however, kept plugging along to the last and had the home team worried toward the close of the game.

• • •

Portland took a double-header from Spokane at Portland on Saturday, and notwithstanding the number of errors piled up by Spokane in the first session, the games were both decided by hard hitting on the part of Portland. In the first game Portland batted Kraft all over the lot, scoring four of the five runs. In the second event, Portland batted Willis almost at will. Bloomfield, who started to pitch the second game for the Pippins, allowed seven of the 10 hits and three runs in four innings and was replaced by Tonneson who had the visitors helpless.

• • •

After an absence of three weeks the Islanders have returned home for a two weeks' stay. This week they will play the Beavers a series of eight games, two on Coronation Day, and next week will clash with the Tacoma Tigers. The game to-morrow starts at 4 o'clock.

• • •

Tyrus Cobb, of the Detroit American League club, is the first major leaguer to drive out one hundred hits in the 1911 season. His century hit came in the eighth inning of yesterday's game with Chicago in Detroit. Not satisfied with gaining this distincion for the day, he raised his total to 101 with another safe one in the ninth. Batting is not the only division in which Cobb leads. His twenty doubles, twenty triples and eight home-runs make him chief of the sluggers. His thirty steals put him at the head among base-stealers and his record of 59 runs in fifty-five games has his opponents beaten by a wide margin. The following shows Cobb's marks so far this season: Games, 55—At bat, 228; runs, 59; base hits, 101; two base hits, 20; three-base hits, 20; home runs, 8; stolen bases, 30; sacrifice hits, 5; total bases, 151; average, 443.

• • •

The Tacoma Tigers and the Spokane Indians are now tied for first place. Both teams have lost more than they have won during the last week, but the Indians, by piling a substantial number of errors in every game, slipped down to the level of the Tigers.

SPOKANE IS TIED BY TACOMA NOW

Yesterday's Win by Tigers Has That Result—Indians and Pippins Break Even

Portland, Ore., June 19.—Spokane and Portland broke even in a double header, the locals taking the first contest and Spokane the second. Strand got to soaring a little in the fourth inning of the first game, and his team mates were somewhat slow. Portland netting five runs from four hits. Archer, who had pitched a pretty game during the first session, was batted out of the box in the third inning of the second game, five runs being chalked up before Portland could retire the side.

San Francisco	3	8	3
Sacramento	4	9	1

Batteries—Melkle and Berry; Baum and LaLonge.

EASTERN LACROSSE.

Shamrocks Defeat Cornwalls—Capitals Badly Beaten by Tecumsehs.

Shamrocks lifted themselves out of the "no percent." class at Cornwall's expense in Montreal Saturday, leaving the factory town twelve to share the cellar position with Ottawa's representatives in the N. L. U. The final score was four to two.

Cornwall lined up with another veteran, Francis Cummins, back of the team, while Shamrocks adopted opposite tactics, appearing without Kavanagh, Hagan or O'Reilly, whose places were taken by youngsters. The game was even all the way through, both teams being fairly well as to condition. Shamrocks notched one in each quarter while Cornwall scored in the first and second but were blanked the second half. The players observed the rules fairly well and there was little rough play and few penalties.

The Tecumsehs administered an unmerciful beating to the Capitals yesterday in Toronto, the half time being 8 to 0 in their favor. The Capitals scored once in the third quarter and again in the fourth, but the Braves tallied eleven more and the final score was nineteen to two. Butterworth scored the Caps' first goal, while Gorman in the fourth notched the second and last for the Ottawa team. In the second Referee Foran fined Murton $10 in addition to his ten-minute penalty for hitting Butterworth, the official holding that the blow was not accidental.

RETAINS CHAMPIONSHIP.

Philadelphia, June 19. — Miss Hazel Hotchkiss of Berkeley, Cal., on Saturday defeated Miss Florence Sutton of Passadena, Cal., in the challenge round of the women's national tennis championship to-day, and thereby retains the title. Miss Hotchkiss won two sets to one, the score being 3-10, 6-1, 9-7. Miss Sutton, showed unexpected strength, and it was only after a series of the most desperate rallies that Miss Hotchkiss was able to win.

CRICKET

CRICKET.

SATURDAY'S GAMES.

Victoria C. C. Team A, 243, vs Albion C. C. 1st XI 56.

Albion C. C. 2nd. XI, 63 and 65, vs Garrison C. C. 49.

Parksville C. C. 40 and 47 for 4 wickets, vs Victoria C. C. Team B, 133 for 8 wickets.

Collegiate school, 203 for 4 wickets, vs. Navy, 69.

VICTORIA TEAM A, VS ALBION 1ST XI.

L. S. V. York scored a century on the Beacon Hill grounds and secured four wickets for 27 runs in Saturday's game.

J. Idiens and E. W. Ismay made a fairly good start for Albion, Ismay scoring 20 out of the first wicket total of 27. Then a series of mishaps overtook the side. Triman was run out on a good slug by W. York. Pegler stopped long enough to gather the unlucky 13. So the six wickets thereafter only added five runs. Idiens played a patient 16 and watched 7 wickets fall before a Yorker upset his stumps. Sparks and the V. C. C captain each took 4 wickets for 27 runs.

Albion started to dispose of Victoria in whirlwind fashion making a triple play. Two men run out and an umpired stumped. Cuthbert continued, Wright retired. Four more runs and Ballantine retired. Total at 11 Pooley and Cuthbert followed suit. The rest batted so well you must really read the score. Marshall and L. York added 59 runs for the eighth wicket, Sparks and L. York 36 for the ninth, and Cane and L. York 82 for the last wicket. Cane not out.

Captain York attached another century to his long list. He scored rapidly as is his wont, having 14 fours and a six in his total of 126. He gave two difficult chances one before and another just after he passed the century otherwise it was a masterly display of aggressive batting. The score:

Albion First Innings.

J. Idems b L. York	16

ALBION 2ND XI VS GARRISON.

Captain Ashby and his team have the proud distinction of being the first this year to lower the colors of the strong garrison aggregation.

With the exception of two men the Garrison had almost their full strength and were playing on their home grounds. They won the toss and sent Albion to the bat.

Lloyd and Ashby scored 52 of the 61 runs from the bat. Ashby just missed the hat trick twice. So well did he perform that the side was out for 63.

With confidence did the Garrison start to knock off the insignificant total. To their chagrin they found they could not score from Spain and meanwhile M. Wicks was knocking down the stumps. Captain Ashby also took a hand in the bowling department. When the smoke cleared away Garrison were all out for 49.

Their only salvation was in a second innings but time robbed them of the chance and they lost by the first inning score which was as follows:

Albion—First Innings.

M. B. Lloyd, b Askey	39
F. Gerrard, b Askey	2
D. Hallam, run out	2

PARKSVILLE VS. VICTORIA, TEAM B.

The strangers were met on the arrival of the noon train, escorted to luncheon and then to the Victoria C. C. grounds, where they were entertained and given first bat without the formality of a toss. Later on, they enjoyed the graceful compliment of afternoon tea, presided over by Mrs. S. N. Hibben.

Richards was the only double figure scorer in the first innings for Parksville. For Victoria Warnicker knocked up a lively 27, and Floyer a 14 not out. The architects again demonstrated their ability, attaining 27 and 31. The innings was declared so as to give Parksville another go.

COLLEGIATE SCHOOL VS. NAVY.

At the Canteen grounds the school boys simply romped away with the navy. The score shows how well the boys batted. Their fielding and bowling was also very good, Wharf being the only Navy double figure scorer. The score follows:

Collegiate School—First Innings.

Mr. Pilkington, b Doe	83
Talbot, c Wharf b Doe	1
Mr. Muskett, c English, b Doe	7

The Best Waterfront In Metchosin

We have a beautiful subdivision in the above district on Parry Bay, made up of seven waterfront blocks of a little over 5 acres each, and seven blocks of about 6 acres each facing on road leading to beach.

The property has a gentle slope from the main road right down to the beach, giving easy access to the same from each lot.

The view across the water from any part of the property is unsurpassed.

The soil is a rich loam, mostly under cultivation, and studded with oak trees.

This is the choice property of the district.

Prices low. See us for particulars.

Temple Building Fort Street, Victoria

DOCKS FROM ORIENT WEDNESDAY MORNING

Awa Maru Spoken by Wireless 850 Miles Out—Has Big Silk Shipment

According to wireless reports received here this morning the Nippon Yusen Kaisha liner Awa Maru will dock at the outer wharf on Wednesday morning from Yokohama and other Oriental points. Last evening the Dominion government wireless station at Estevan was in communication with the steamship and at 6 o'clock reported that she was 850 miles from this city.

This is one of the longest distant wireless talks that one of the stations on Vancouver Island have had with an Oriental steamship for some time. The air conditions last evening were good and as the Awa Maru has one of the most powerful instruments of any of the liners, communication was made possible at such a distance.

Many distinguished passengers are coming across from the Orient on the Maru to visit the States and Canada. The steamship has also a great many steerage passengers, the majority of whom are for Victoria. Stowed in the holds of the Awa Maru is a big cargo of general freight and she will discharge a considerable quantity at this port. Silk valued at half a million dollars is consigned to New York and will be forwarded on the arrival of the vessel at Seattle.

The Kamakura Maru, Capt. Kon, of the same line, which left the outer wharf on Saturday for the Orient, was also spoken last night by the Estevan station. She gave her position at 6 o'clock as being lat. 49.02 north, and long. 141.33 west. The Kamakura took a big cargo of freight from Puget Sound and many passengers joined the steamship at this port.

Next of the Oriental liners due here after the Awa Maru will be the Panama Maru, of the Osaka Shosen Kaisha fleet, which is scheduled to arrive a week from Wednesday.

WIRELESS REPORTS

June 19, 8 a.m.

Point Grey—Clear; calm; 30.14; 57; sea smooth.

Cape Lazo—Clear sky; calm; hazy seaward; 30.18; 60; sea smooth.

Tatoosh—Cloudy; wind south, 8 miles; 30.25; 48; sea moderate; in, steamer Mayfair at 6.40 a.m.

Pachena—Clear; wind S. E., 29.95; 53; sea smooth.

Estevan—Raining; wind S. E., light; 29.82; 48; sea moderate; spoke Kamakura Maru at 11 p.m., position at 6 p.m., lat. 49.02 north, long. 141.33 west; Awa Maru at 11.15 p.m., position at 6 p.m., 850 miles from Victoria.

Triangle—Overcast; wind N. W., 6 miles; 29.56; 40; sea smooth; spoke Princess May at 6.30 p.m. off Pine Island northbound.

Ikeda—Clear; calm; 30.16; 49; sea smooth; in, Prince Albert at 4.30 a.m.; out again at 5.30 a.m.

Prince Rupert—Overcast; wind S. E., light; 30.06; 48; sea smooth; spoke Humboldt, arrived at Ketchikan at 8.30 p.m.; in, State of California at 1 a.m.; out again during night.

Dead Tree Point—Clear; calm; sea smooth.

Tacoma, Wash.—Arrived: Steamers Massachusetts, San Francisco; Buckman, San Francisco. Departed: Japanese steamer Tacoma Maru, Seattle.

TWO NEW STEAMERS FOR PACIFIC COAST

Vessels for 'Frisco - Puget Sound Trade to Cost $3,000,000

To provide for the rapidly increasing traffic beteen Victoria and Puget Sound points and San Francisco and other California cities, the Pacific Coast Steamship Company, which operates the steamships Governor and President, sailing direct from 'Frisco for Seattle, and the City of Puebla and Queen, calling at this port en route, is planning to make an important addition to its fleet of vessels.

Arrangements were completed on Saturday for the construction of two palatial passenger liners to cost approximately $1,500,000 each for service between Seattle, San Francisco, Los Angeles and Southern California ports.

Bids will be requested in the near future for the construction of two 8,000-ton turbine passenger steamships, which will be capable of making a speed of twenty knots an hour. The vessels will be double-bottom, twin-screw steamship with the latest type of engine. They will contain elaborate passenger accommodations and will be equipped with everything known to convenience and safety in ocean travel.

Announcement of the plans of the company to make the enormous expenditure of $3,000,000 for new passenger steamships for coast traffic was made at Seattle on Saturday by George H. Higbee, vice-president and general manager of the company.

It is understood here that the new steamship to be constructed will be placed on the service direct between Seattle and the Golden Gate and that the Governor and President, which now cover that route, will be transferred to the run which includes Victoria in the ports of call. The smaller vessels, the Queen and Puebla, will be withdrawn. The present ships are unable to handle the great amount of traffic which according to the officials of the line has increased fifty per cent during the past two years. The equipment which was sufficient several years ago is now too small and better vessels are needed to meet the requirements of the day.

OLD SIDE-WHEELER SOLD.

Vancouver Party Purchased George E. Starr From Seattle Concern.

Seattle, June 19.—The historic old steamboat George E. Starr, the only side-wheel passenger vessel on Puget Sound and one of the oldest vessels in these waters, is to be placed under the British flag, according to her owners, who announced on Saturday that she is to be sold to Vancouver parties who will place her in commission and operate her out of that port. The Starr has been laid up for over a year. She left for Vancouver on Saturday morning in tow of a tug.

The vessel was built in Seattle in 1879 by J. F. T. Mitchell. She was launched on August 12th the same year and began her trial trip on August 14, in command of Capt. Charles Clancey. She is copper bottomed and her hull and timbers are in excellent condition and contain more years of service despite the thirty years already to her credit.

At the time of the great Klondike rush the Starr made several trips to Skagway, crowded with freight and passengers. The trip is one of the most remarkable ever undertaken by a vessel of her class.

Repairs to the steamship Minnesota, of the Great Northern Steamship Company, which broke her thrust shaft while bound from Yokohama to Seattle, have been completed and the big liner sailed from Seattle for the Orient to-day at noon. The Minnesota arrived from the Far East on the night of April 13 and has been lying at the Great Northern dock, where the repairs were made. While the vessel was bound for this port a new shaft was ordered from the east and has been installed in record time.

President Taft says: "To the man who is actively engaged in responsible work, who must have at his command the best that is in him, at its best—to him I would, with all the emphasis I possess, urge and advise, 'leave drink alone, absolutely.' He who drinks is deliberately disqualifying himself for advancement."

LIGHT WEEK WITH DEEP SEA VESSELS

Few Arrivals and Departures Within Next Seven Days—Kamakura Maru Sails

Things in the deep sea arrivals and departures, during the week will be rather dull, as so far as can be seen there are only three liners scheduled to sail and one to arrive. It will be one of the quietest weeks that the port has experienced for several months. Recently there have been many busy weeks here in connection with ocean shipping, but the lull during the present week will be followed by an extra heavy turn while the last days of the month are being chalked off.

Local agents of the Canadian-Mexican line expect that the steamship Lonsdale, Capt. Bates, will sail from this port to-day for Salina Cruz and other Mexican ports. She is now at Vancouver completing her cargo of several thousand tons and latest advices state that she will get away at the beginning of the week. There is nothing slated for Tuesday but on Wednesday the R. M. S. Empress of Japan, Capt. Robinson, will leave the outer wharf for the Orient with a big passenger list, and the Awa Maru, of the Nippon Yusen Kaisha line, will dock here from Yokohama. The Awa Maru is reported to be bringing a cargo of three thousand tons, of which several hundred tons are for Victoria, besides a number of steerage passengers. On Saturday the Osaka Shosen Kaisha steamship Tacoma Maru leaves for the Orient.

A very successful week was closed Saturday by the sailing of the Nippon Yusen Kaisha liner Kamakura Maru, Capt. Kon, for the Far East. Many steamships were cleared from this port during the week, and although not an exceptionally busy one it was well up to the mark and deserves to go on record.

MAKES RECORD TIME IN NORTHERN WATERS

Princess Royal Steams Over Fourteen Knots Between Simpson and Skagway

Averaging 14.3 knots an hour during her trip from Port Simpson to Skagway and return to the former port, the steamer Princess Royal, Capt. Neurotsos, which arrived at the inner docks at 1 o'clock this morning, established a new record for that distance. No other vessels that have plied in the northern trade have equalled the performance of the Royal and her officers feel confident that they can show all the Skagway steamers that she is cock o' the walk.

This was the first trip the Princess Royal had made this year in the Alaskan service. The officers report that they had a splendid passage, not having one day's rough weather during the trip. She made excellent time and arrived at Vancouver several hours ahead of her schedule.

As passengers the Royal brought south 125 persons, many of whom were bound for this city. The majority of the passengers joined the vessel at Prince Rupert and disembarked at the Terminal City. She also brought south about one hundred tons of general freight from northern points.

According to her schedule the Princess Royal is due to sail for the north again to-night. The deckhands have been busy during the day loading the vessel with freight. Many passengers have booked passage on her and when she pulls out from Vancouver her accommodation will be completely utilized.

MARINE NOTES

Word has been received here that the Kosmos Steamship Company, in order to meet the requirements of the growing trade between Puget Sound and Europe, has placed an order for three 12,000-ton steamships. Two of these vessels will be built at Bremerhaven and one at Flensburg. The Kosmos line recently disposed of several older steamships, but the growth in the trade with the West Coast and Puget Sound and the greater activity expected with the opening of the Panama Canal have rendered it necessary to put extra steamships on this coast.

* *

A new regular freight service between Seattle and Vancouver is to be established June 21, according to announcement made by Dodwell & Co., who have been appointed Seattle agents for the Coast Steamship Company, Ltd., of Vancouver, who will operate the new line. The steamship Celtic, a vessel less than two years old, is to be first placed on the run, and if the support is given by the local shippers to warrant an expansion other vessels will be added. The Coast Steamship Company expects to have two sailings a week from Seattle on Wednesdays and Saturdays.

* * *

With many passengers and a good cargo of freight, the C. P. R. steamer Joan, Capt. Ritchie, arrived in port yesterday morning from Comox and Nanaimo. She is scheduled to sail again to-morrow morning on her regular run.

* * *

Because of the expense and difficulty of maintaining a herd of cows in Alaska, R. W. DeArmond, the Northland Steamship Company's agent at Sitka, has decided to establish a goat farm. Four goats and two kids, from a farm at Meadowdale, Wash., were taken north on the steamship Northland which left Seattle last night.

—See J. N. Harvey's ad. on page 11.

DIFFICULTIES UNSETTLED.

Conferences Held Between Longshoremen and Puget Sound Shipping Association.

Seattle, Wash., June 19.—The difficulties between the longshoremen and the Puget Sound Shipping Association are still unsettled although conferences were held on Friday and Saturday between a committee from the Pacific district council and members of the association. The members of the convention were entertained Friday by the local union, with an auto trip about the city while the committees were in conference, and no executive session of the convention was held.

CHARMER COMPLETES SUCCESSFUL TRIALS

Makes Good Speed With Oil Burners—Goes Into Service Some Time Next Week

Working under full steam pressure on her trial trips burning oil on Saturday afternoon, the steamer Charmer made a remarkable performance. Her speed was much faster than when she had been operated with coal and it is estimated that she went close on fifteen knots per hour. Many more revolutions were obtained out of her engines, and it is expected that when she is in proper condition she will eclipse her record of Saturday.

This was the first time the oil burners on the Charmer had been used and the try-out proved satisfactory to the officials of the B. C. Coast Service.

The work of equipping the Charmer with oil burners was conducted by the Victoria Machinery Depot. Finishing touches are now being made to the Charmer in fixing her up to take up the duties of a relief steamer.

Capt. Troup stated this morning that he expected she would go into service next week, although nothing definite had been arranged as to what route she will be placed on. It is rumored that she will replace the Princess Adelaide on the night run between this city and Vancouver, and that the new steamer will go to Seattle to have her oil-burners installed.

HAIR GROWTH

Promoted by shampoos of CUTICURA SOAP and light dressings of CUTICURA. This treatment allays itching and irritation, destroys hair parasites, cleanses, purifies and beautifies and tends to make the hair grow upon a clean, healthy scalp.

CENTURION REACHED SAN FRANCISCO TO-DAY

Slow Passages by Sailers From Newcastle—Marine News of Golden Gate

San Francisco, Cal., June 19.—The British ship Torrisdale arrived last night 138 days from Antwerp with general cargo for Mercer Wilson & Co. So far the Torrisdale has no outward charter, but owing to the scarcity of available tonnage will likely be fixed in a few days.

The schooner Henry K. Hall arrived last night after a slow passage of 92 days from Newcastle, Australia, with coal for Hind, Rolph & Co. She is not fixed outward as yet.

The barquentine John Patterson is out 109 days from Newcastle and the barque Pactolus 108 days, but owing to the numerous slow passages recorded this year neither vessel's delay is causing any anxiety, although they should turn up within a few days.

The government has just chartered two more colliers for the trip from Norfolk to San Francisco at $4, with the option of San Pedro at $4.50.

The British steamer Hornby Castle cleared yesterday for Vancouver to discharge part of her cargo.

The schooner Pleiades cleared for Honolulu, and the new oil tanker W. F. Herrin cleared for Juneau via Monterey. The British steamer Centurion of Harrison direct line from Europe, reached San Pedro Friday. She will arrived here to-day and sail for Vancouver Saturday.

The Matson liner Hilonian arrived yesterday from Honolulu, the steamer Queen from the Sound and the Governor from San Pedro.

A granary fourteen stories high is to be erected at Glasgow by the Clyde Navigation Trust for the reception of grain. It will be the highest building in Scotland.

CAPT. WHITELEY APPOINTED PILOT

CAPT. THOMPSON RESIGNS AFTER FAITHFUL SERVICE

Has Been Thirty-Two Years With Pilotage—New Pilot Well Known Along Coast

Announcement has just been made by the officials of the Victoria and Esquimalt Pilotage that Capt. W. H. Whiteley, of the C. P. R. steamer Princess Beatrice, has been appointed a pilot, following the resignation of Pilot Thompson, who is retiring from the sea after a distinguished career. Captain Whiteley is now in the north, and will not take over his duties until the 1st of August.

The new pilot, who is one of the most popular skippers along the local water front, was born in Labrador in 1862, and has followed the sea since his boyhood. He came to Victoria about 25 years ago, and soon afterwards commenced sealing with the old schooner Labrador. Capt. Whiteley remained with this vessel for a considerable length of time, leaving her to bring the schooner Mermaid to this coast. He demonstrated his ability as a navigator by bringing the Mermaid out in 119 days. While engaged in the sealing industry he operated mostly off the Japan coast, and the only mishap he has met with was when the Mermaid collided with a whale.

For many years he has been in the service of the Canadian Pacific railway, and he enjoys the distinction of being one of their most capable navigators. He has piloted many of the C. P. R. vessels up and down the coast, and has had splendid success in carrying out his calling. The numerous friends of Capt. Whiteley are glad to hear of his appointment.

Capt. John Thompson, who has held the position as a member of the Victoria pilotage for 32 years, has decided to retire from active service and turn his duties over to a younger man. He was born in Liverpool, Eng., in the year 1849, and commenced his maritime life on the brig Alciope, sailing till 1865, when he joined the United States gunboat Tallapoosa, remaining with her until the close of the civil war. He then went to China and engaged in coasting out of Oriental ports for two years, leaving there for a voyage to England, then to New York, where he joined the ship Valparaiso in 1875 and came to San Francisco.

His next two years were spent on the steamship Panama as quartermaster and third mate. In 1878 he left the Panama and came to Victoria, where he secured a special license, having charge of the pilot boat Caroline for six months, and subsequently taking out the regular pilot's license for the district of British Columbia. During the 32 years he has followed his calling he has always enjoyed success and freedom from accidents. He has not had a holiday during that time.

It is understood that Capt. George Kirkendale, shipping master at this port, will be appointed to the pilotage board. A vacancy was caused through the death of A. B. Fraser, sr., chairman of the board, and Capt. Kirkendale is to receive a position on the board.

NO INTERNATIONAL REGATTA THIS YEAR

Drastic Resolution Passed at Meeting of N. W. I. Y. R. A. —Inter-Club Race Instead

Owing to the disinclination of several of the northwest yacht clubs to contribute towards the cost of the international regatta, which was to have been held here July 3 to 10, has been called off and in its place an inter-club meet will be held. This was decided at a meeting of the committee of the Northwest International Yacht Racing Association held in the Royal Victoria Yacht club on Saturday evening. The following was the resolution passed:

"That as none of the clubs in the N. W. I. Y. R. A. other than the Royal Victoria Yacht club, the Royal Vancouver Yacht club and the Everett Yacht club have shown any disposition to carry out the resolution passed at the last annual meeting of the association held at Victoria on July 3, 1910, whereby each club of the association should contribute towards the cost of the international regatta at Victoria in 1911, the committee of the N. W. I. Y. R. A. deem it advisable that the international races for 1911 be called off. The committee further express the hope that the Royal Victoria, the Vancouver and the Everett Yacht clubs will see their way clear to carry out a regatta in Victoria between the 3rd and the 6th days of July, to be held under the auspices of the Royal Victoria Yacht club. They also trust that all yachts entitled to fly the burgee of any recognized yacht club on the Pacific Coast will attend."

Those present at the meeting were: President C. B. McNeill, Vancouver; Treasurer, W. S. Chambers, Victoria; Mr. McAdam, Everett, G. V. Cuppage, commodore of the association; J. Musgrave, commodore of the Royal Victoria Yacht club, and J. S. Gibb, Victoria.

It is certain (though no official statement has yet been made) that no facilities will be granted by the British government for the passage of the woman's suffrage bill through the House of Commons during the present session. The excuse is the congested state of the ministerial programme; but more specific pledges will be given as to future action.

WANTED!

Men With $10 Cash to Invest

Don't wait until the eleventh hour and then expect to secure shares in the British Pacific Coal Company at 35 cents each, par value $1.00, since this announcement is a warning to you that Trustee T. R. Morrow, will positively advance the price through placing on the market a limited block of stock held by him in the British Pacific Coal Company at 50 cents on Tuesday, June 27th.

This means that those who buy to-day at 35 cents have a profit of 15 cents per share through the advance in price on June 27th, yet are only required to pay down 10 cents per share cash.

The man with $10 in cash can buy 100 shares at 35c, the remainder is payable over a period of three months. On the 27th his profit is $15, or 150 per cent on his cash outlay.

You can acquire 1,000 shares by paying down $100. Your profit on the morning of the 27th is $150—Trustee T. R. Morrow absolutely guarantees that the price will be 50 cents on the next issue which goes on sale at 9 a.m. on Tuesday, June 27th—therefore you cannot make 150 per cent easier or more quickly than by buying a number of shares in the British Pacific Coal Company at the present price of 35 cents per share.

The British Pacific Coal Company is the corporation controlling a large area of coal lands on Graham Island and may be quite properly deemed a development company since there are a number of miners at work on the property now completing the preliminary work.

The Superintendent returned from the property on Saturday. In his report he recommends that Alexander Faulds, the engineer, together with a second party of men leave immediately for the property to install permanent development work.

This means a marked advance in the value of the shares and predicts immediate brisk trading in the same.

The property is showing up so well that the next issue at 50 cents will be very small and will, in all probability, be taken up in a few days time, when a subsequent issue will be placed on the market at 75 cents or one dollar the share.

A SUMMARY OF THE PROPOSITION

The Company controls 8,320 acres fronting on Skidegate Inlet, 80 miles from Prince Rupert by water.

There are six seams of coal in the property. The engineer estimates, on a most conservative basis of calculation, that one seam carries 36,000,000 tons of coal, which represents $22.50 profit for every $1 invested, and also places the cost of coal to the shareholder at but 4 cents per ton.

It being anthracite coal, carrying 83 per cent fixed carbon, yields twice as much heat as the same volume of bituminous coal. The output of the Company's mines will naturally control the price of coal on the Pacific Coast.

Already several flattering offers have been made for the property at a price which would repay each shareholder all the cash paid on his stock as well as a handsome dividend of at least 40 per cent.

Two offers have been submitted for the output of the mine at a good price for a period of twenty-five years by responsible people.

The Company intends to operate the property so as to obtain the greatest profit for the shareholders.

The Engineer says that coal may be shipped in six months' time, which is indeed rapid development work and means early dividends to the shareholders.

Six eminent engineers have visited and reported on the property as being one of the greatest coal mines in the North American continent.

Coal has made millions for men in Western Canada. Much of the wealth of Vancouver Island may be atttributed directly to coal operations.

In buying shares in the British Pacific Coal Company from T. R. Morrow, the public have an oportunity to secure to themselves a proposition which not only embraces absolute security but promises handsome dividends through the development of the property.

Remember that the Trustee, T. R. Morrow, will not necessarily accept all applications since the 35 cent issue may be all taken up any day now.

Address your applications and make your cheques payable to T. R. Morrow, Trustee.

No application received for less than 100 shares.

The cash payment is 10 cents per share and the balance is spread over a period of three months.

The Office of the Trustee, 604 Broughton Street is Open from 9 a.m. to 9 p.m.

ARENA CO. INCORPORATED.

Local Promoters Plan Ice Rink for Victoria.

The incorporation of the Victoria Arena Company, Limited, with a capital of $100,000, for the purpose of establishing an artificial skating rink in this city, is announced in the last issue of the B. C. Gazette.

The principal objects of the organization, as set forth, are:

To construct, erect and maintain at the city of Victoria, British Columbia, an artificial or natural, or both, skating and curling rink or rinks, or both, and other buildings and works convenient for the purpose thereof, and to furnish, maintain and carry on the business of curling rink and skating rink proprietors and managers.

To promote skating, curling, and hockey and other athletic sports and pastimes.

To hold and arrange skating and curling competitions, and hockey matches and carnivals, and offer, grant or contribute therefor prizes or awards for distinction.

To provide a hall or other suitable rooms, buildings and places, and to permit the same or any part thereof to be used on such terms as the company shall see fit, for any purpose, public or private, and in particular for public meetings, exhibitions, concerts, lectures, dinners, theatrical performances, and other entertainments.

To carry on the business of manufacturing, selling, dealing with and disposing of ice and similar commodities, and such other business or businesses in connection therewith as this company may from time to time deem advisable.

To operate refrigerators and cold storage plant or plants, and such other plants or appliances, and such other business or businesses in connection therewith as this company may from time to time deem advisable.

To construct, operate and control for public or private use a swimming tank or tanks, swimming bath or baths and Turkish baths, and to control and manage the same as the company shall see fit.

REPORT ON TEMPERANCE.

General Assembly Summarizes Conditions —Condemns Bad Books.

Referring to the temperance movement in Quebec the social and moral reform report of the general assembly which met at Ottawa says that that province is well in the van of progress. Sixty-nine per cent. of the municipalities are dry. A large share of the credit for this is given to the Roman Catholic church, and notably Archbishop Bruchesi. In the province of Ontario, out of 812 municipalities, there are 431 without the legalized sale of liquor.

The report sums up the other provinces as follows:

Prince Edward Island—Prohibitory law working well but needs more efficient enforcement.

Nova Scotia—Prohibitory law improved and it seems reasonably probable the whole province will be under prohibition in a couple of years.

New Brunswick—No important change.

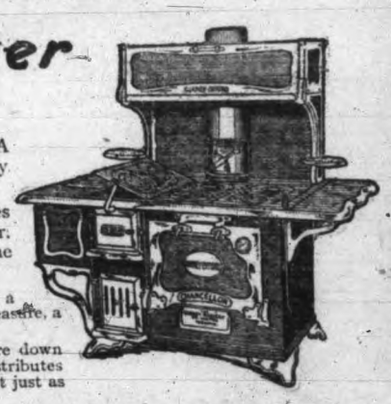
Manitoba and Alberta—Little change since last year. Temperance party under serious handicaps in both provinces.

Saskatchewan—Weaknesses in local option law, but out of 73 municipalities voting, 27 carried the veto.

British Columbia—No progress within the year.

—See J. N. Harvey's ad. on page 11.

The Best Baker in Canada



A good oven is the housekeeper's delight. A poor one is the despair of her life. That's why we want to tell you about this Chancellor.

A special divided flue makes the oven a **perfect** baker. There is not a range in the country can beat it

Baking day instead of being a trial and a disappointment is a pleasure, a satisfaction.

Come in the store when you're down town and let us explain to you just how this flue distributes the heat evenly over the whole oven. Bakes in front just as well as back—under crust as well as upper.

The GURNEY OXFORD STEEL TOP

means a marked saving in fuel, and better baking results. The Chancellor not only does its work **better** but **at less cost** than other ranges.

We can demonstrate to you the whole superior Chancellor principle of **economy** and **efficiency** in ten minutes.

Isn't it worth that much of your time right now?

The Chancellor is made for either coal or wood. Other **Gurney-Oxford** designs of every sort, for every purpose and all kinds of fuel, on display on our floor. **Special demonstration now.**

The Evening Chit-Chat

By Ruth Cameron

A "Letter to the Editor" which appeared the other day in a New York paper, interested me immensely because of a certain very common feminine foible which it shows up most excellently.

It is from a man who is struggling with the domestic help problem.

"During the last ten months," writes the sufferer, "I have been through a regular domestic 'hell' with no less than fourteen women house-workers. To my several advertisements I have had over 700 replies. Of those selected, two proved to be drunkards, three were utterly incompetent as workers, two discharged themselves by remaining out overnight without either warning or permission, one admitted strange men to the house at two o'clock in the morning, and three left before their first week was out without giving either reason, notice or explanation; one proved to be subject to intermittent insanity; one was a runaway wife whose husband came to seek her, accompanied by a lawyer and a little child; one simply flatly refused to get up in the morning until half an hour after the breakfast hour, and still another was an incorrible liar and thief."

The "common feminine foible" which you may be looking for is in the next paragraph of the sufferer's plaint.

"The most exasperating part of it is that one and all of these failures came with seemingly first-class references from former employers and personal sponsors."

Isn't it a queer quirk of mind which permits otherwise conscientious and self-respecting women to do this sort of thing?

I wonder just how they can bring themselves to do it?

Perhaps because they find it's the only peaceable way to get rid of the discharged employee.

Perhaps they feel, like Agnes Repplier, the well-known essayist and traveller, who, in her delightful fashion, tells of strewing recommendations of undesirable guides "broadcast over the earth to be a delusion and a snare to my fellow men," and naively explains her conduct by saying, "It never occurred to me that anyone would regard them seriously, until an acquaintance informed me with some asperity that he had employed a guide on my recommendation and had been cheated by him."

Most likely of all, they do it because they are sorry for the girl and just don't think far enough ahead to be sorry for the mistress they are foisting her upon.

To needlessly tattle to a prospective employer about a maid's small faults, such as inability to iron very well, or imperfection at cooking, is rather unkind.

To condemn a girl and give her a poor reference merely on suspicion is unfair.

To refuse to give a desirable girl a reference merely from irritation with her comes very near being criminal.

But to go to the other extreme and deliberately send out a girl whom you know to be a liar, a thief or a drunkard, or in some other way untrustworthy, with a character that glosses over any of these charming little habits, seems to me to be just as unkind and unfair and near-criminal on the other side of the fence.

THE PASSING SHOW

Majestic Theatre

The new bill includes some big features. "The Bad Man's First Prayer," a western drama showing the influence of a gentlewoman in the redemption of two western miners. Exciting rides, heart touching pathos, exquisite scenes. "The Three Whiffles" is a fascinating trick film, which will mystify the wisest. "Slim Jim's Last Chance," a story of the west. "Native Industries of Cochin China," fine scenic. "The New Stenographer," a Vitograph, the best ever, a comedy that keeps the laughs going throughout and a few more to take home.

Romano Photoplay Theatre.

That the films shown at this theatre are appreciated by the public is evinced by the fact that before the first performance is over, the theatre is crowded to its capacity, nightly. The patrons can enjoy the pictures in comfort, too, as the management has installed a thorough system of ventilation, which provides a cool and refreshing atmosphere, no matter how large a crowd may be in the house.

The playing of the Romano trio, under Prof. Turner, no doubt accounts for a large amount of the patronage which this theatre enjoys, as it is without doubt the finest musical organization of its kind in any picture house on the coast.

The management has secured for to-day and Tuesday a line of films that are all features, including "The Strangers Plate," a drama by the Reliance Co. "The Bad Egg," a roaring comedy, also "The Bashful Son," comedy, "The Pair of Pants," comedy, and others. Madam Burnett, will be heard in a new and popular ballad, and the Romano trio will have a special selection of music for the pictures.

The Empress-Grand.

"Hogan in Society," America's classic in slang, which Bert Leslie made famous, is to be heard this week, commencing to-day, at the Empress-Grand with George Rolland and his own company of players appearing. Rolland is the famous Leslie's successor in the part of Hogan. The Olivotti Troubadors, a combination of the best musical talent, of Italian origin, is expected to be a very big hit on the local stage; Josephine Davis, who is always a hit, is back again; Sandberg and Lee in a Welsh rarebit sketch, all fun; and Josie O'Meers, who won the title of "Queen of the Silver thread" in Paris for her wire performance, are both billed here. The moving pictures and Louis Turner's orchestra complete the bill, which is just the same at matinee as at night shows.

At the Gorge.

A pleasing programme was rendered yesterday afternoon by the Gorge park orchestra at that charming resort, which was crowded all day. To-night an entirely new set of films are put on, which will be found fully equal to those that have been shown the past couple of weeks. The new dancing pavilion is nearing completion and is to be formally opened on Thursday evening.

Crystal Theatre.

"Sexton Blake," a Gamont release, is a sensational detective story in two parts of two full reels of films. "The Forester's Sweetheart" is a Bison drama which speaks for itself. "Smallest Pony in the World" and "Peculiar Pets," Imperial films, make up an excellent programme for Monday and Tuesday. Patrons should always bear in mind that at the Crystal they are accorded courteous treatment, will be cool and comfortable and will see the very best in photo-plays.

SOCIAL AND PERSONAL

Mrs. L. J. Ostrander, Saskatoon, is visiting friends in the city.

• • •

Miss Leigh Spencer, returned to Vancouver on Saturday night.

• • •

Mr. and Mrs. Dawson, Sault Saint Marie, are visiting friends in this city.

• • •

Mrs. W. P. Winters and daughters left on Saturday on a visit to Portland.

• • •

Mrs. P. Nowell Johnson, Calgary, is spending her vacation with relatives, 374 Simcoe street.

• • •

Mrs. J. T. Thompson, Tennyson Ave., will not receive on Wednesday June 21, or again until fall.

• • •

Mrs. Edward North, 733 Victoria Cresent, will not receive to-day nor again during the summer.

• • •

Mr. and Mrs. J. A. Heritage celebrated their tenth wedding anniversary last Monday evening. About twenty friends were invited.

• • •

Mr. and Mrs Stanley Porter, 522 Toronto street, entertained about thirty friends on Saturday evening in honor of their first wedding anniversary.

• • •

The first Shawnigan Lake flannel dance will be held at the Strathcona Hotel next Saturday night. Invited guests should apply to-day to their invitations in order that accommodation may be found for them. The Thain-Bantly orchestra will be in attendance and a most enjoyable time is promised. Those who were at the opening dance at the Strathcona will know what Louis Lucas and John P. Sweeney can do in the way of successful entertaining.

• • •

A very pretty wedding took place at the home of Mr. and Mrs. Duncan Gillies, Victoria road, Nanaimo, Wednesday evening, when Mr. David T. Jones, Victoria, and Miss Isabella Adam Gillies were united in matrimony by the Rev. J. R. Robertson, pastor of the St. Andrews Presbyterian church, Nanaimo. The bride was given away by her father, Mr. Duncan Gillies. Many guests were present to witness the ceremony and after congratulations, joined in a merry evening commencing with a very daintily served supper. Mr. and Mrs. Jones left on the Princess Mary for Vancouver and will shortly take up their residence in Victoria.

• • •

H. T. Hanover formerly Western Sales Manager for the Tudhope Motor Co., of Orillia, has affiliated himself with A. C. Cummins the "Everitt" agent for Vancouver Island. Mr. Hanover predicts a great year in 1912 for motors in Victoria and vicinity also expresses his surprise and pleasure at the great increase of moters throughout the coast. It is the purpose to conduct a general garage and repair business at 93 View street where he will be pleased to show their new place of business and gladly give any information in their power to all motorists.

CHINESE FAMINE.

Miss Macklem, 1126 Richardson avenue, acknowledges the following additional contributions towards the relief of the Chinese famine sufferers: Miss Bovill, $1; collected from friends and school children, per Mrs. Averill, Cowichan station, $6; friend, $16; Mrs. Warren, Rockland avenue, $1; per Bank of B. A. A., Duncan Branch, $6; Anon., $1; per Bishop Perrin, $1; a Welshman, $1.

The news from Bishop White, Honan, describes conditions as simply appalling and the need for aid is as great as ever. Sufferers are flocking into the cities and the cost of living is going up. Parents sell their children for food and horrible tales are told of starving people eating the dead.

Miss Macklem states that the clergy who are kind enough to help the work by bringing the matter before their people can obtain envelopes at the Victoria Book and Stationery Co.'s store, 1004 Government street.

SEATTLE DIVORCES.

Seattle, Wash., June 19.—Superior Judge John R. Main Saturday granted 27 divorces, within two of the record made last year by Judge W. Frater and Wilson R. Gay. Before hearing the cases Judge Main announced that no attempt would be made to break the speed records.

Penny Wise Pound Silly

That is what parsimony in paint is — an expensive economy. Paint costs little, but it preserves materials that cost much. The loss from decay that can be prevented by timely use of paint can never be made good. This means it pays to use paint freely. And

When You Use Paint Let it be the Kind That Looks Best and Protects Longest

We know paint from A. to Z, and shall be pleased at any time to give you our advice with regard to paint and painting.

Our advice and suggestions are free for the asking, both in the matter of exterior and interior work.

There is nothing we like better than to devise a color scheme for the whole house in painting and paper hanging.

We carry a large staff of experts. Our charges are always reasonable. Our work is prompt and good.

FRASER RIVER IS IN FLOOD

SERIOUS DAMAGE LIKELY IN VALLEY

Thousands of Acres of Land Under Water — Farm Houses Are Isolated

Vancouver, June 19.—The Fraser river is on the rampage. Old residents of New Westminster look for serious floods that may possibly rival the disastrous inundation of 1894, when the waters overflowed the banks and covered many thousands of acres of lands in the lower valley, causing a suspension of railway traffic for several weeks. They base their opinion on the lateness of the spring as well as the heavy snowfall in the watershed of the Fraser during the past winter.

The river has risen steadily during the past four days. It has overflowed its banks, covering the flat of Port Mann townsite to a depth of 12 inches, and in several places east of Pitt river has reached a point within seven feet of the C. P. R. main line.

According to advices received at the offices of the Canadian Northern railway to-day, Sumas lake is now a vast reservoir owing to the volume of water poured into it by the Vedder river, which has its source in the snowcaps of the Hope mountains. The outlet to the Fraser river is too small to release the enormous volume of water, with the result that many thousands of acres of farm lands have been submerged to a depth of from two to ten feet. In several instances farm houses built on knolls are completely cut off from communication with the outside world except by rowboats.

The Yale wagon road in the vicinity of the lake is also under water and is impassable. The waters have also reached within six feet of the Canadian Northern piling on a flat between Sumas mountain and Chilliwack.

If a hot wave arrives within the next 24 hours and lasts several days the situation will become serious.

W. K. Gwyer, a resident railway engineer on the Canadian Northern railway section, extending from Hope to Popkin Indian reserve, confirmed the reports of the danger of a disastrous flood. He states that according to official measurement the river is pouring a whirling volume of water 50 feet deep through the canyon below Lytton.

FLOWER SERVICE.

Impressive Ceremonies at the Jubilee Hospital Yesterday.

A most touching and impressive coronation and flower service was conducted yesterday at the Pemberton chapel, Jubilee hospital, by Rev. Joseph McCoy.

The service opened with a procession of the Metropolitan church choir along the corridors to the chapel, singing "Onward, Christian Soldiers." The National Anthem was then sung and a reading by the pastor followed. Hymns and prayer were taken part in by all present, after which Rev. Mr. McCoy preached a short sermon from the text: "Consider the Lilies."

Miss Kathleen Little accompanied Mrs. Oscar McMicking and Mrs. J. D. Helmcken, who rendered the solos "The Promise of Life" and "He Shall Feed His Flock," respectively. During the presentation of flowers Mrs. Helmcken sang "God Bless the Prince of Wales."

The service closed with an anthem by the choir, "There is a Green Hill Far Away," and benediction.

The chapel was most beautifully decorated with golden and purple iris. The altar was draped with Union Jacks and on it was an exact fac-similie of the regalia of the United Kingdom, which was lent by the Daughters of Empire.

After the ceremony in the chapel the Salvation Army band gave selections of sacred music in the grounds of the hospital so that those who were unable to attend the service could hear.

MAN TAKES POISON AT VANCOUVER

Threatened to Kill His Wife and is Later Found Dead in Bathroom

Vancouver, June 19.—There was a call for help and a rush by a woman along the street from No. 1540 Yew St., shortly after midnight last night. The woman aroused Doctors Troughton and Cartwright, who went to the scene of the trouble, which was in suite 2 in the apartment house at the number above mentioned. They found no one present and called in a policeman. Dr. Troughton broke open the door of the bathroom and found J. Oliver Bratt lying on the floor. The doctors found after a brief examination that the man was dead, evidently from poison.

The wife stated that her husband had apparently gone insane and had threatened her life. She ran out calling for help, and apparently finding that he could not commit murder, Bratt committed suicide.

On the table in the dining room where Bratt had been sitting was found his pocket book, containing $40 and beside it a glass partly full of Vape-cresoline. There was nothing of value on the man's person beyond a package of cigarettes.

Bratt was a man of about 30 years of age. The police have no record of him previous to his coming here, and Mrs. Bratt is at present suffering too much from the shock to be interviewed.

MAN AS OLD AS HE LOOKS

Parisian Sage Is the Best Friend a Man Has

No man likes to look older than he is. Every woman on earth absolutely abhors such a condition. You may be thirty in years, but if you are bald-headed or grey, people will surely take you to be many years older than you are. A timely use of Parisian Sage will prevent this.

Dandruff is the root of all hair evils. If it were not for the little destructive germs working with a persistency worthy of a better cause, there would be no baldness. Parisian Sage, America's greatest hair restorer, will keep you looking young and attractive.

Old at Thirty Out. The girl with the Auburn Hair is on every bottle.

Parisian Sage is guaranteed by D. E. Campbell to make hair grow and stop falling hair; to cure dandruff in two weeks and to stop itching of the scalp almost instantly.

Parisian Sage is the most invigorating, satisfying and pleasant hair dressing made; it makes the hair soft, luxuriant and handsome; it is especially praised by women who have beautiful hair. Parisian Sage is for sale by all druggists; 50 cents a large bottle or postpaid from the Giroux Mfg. Co., Fort Erie.

DIES SUDDENLY FROM HEART FAILURE

Captain Smith, Jailer at Prince Rupert, Found Dead in His Bed

Prince Rupert, June 17.—Captain Smith of the city police department was found dead in bed in his room at the New Knox hotel. He died of heart failure. Dr. Reddie examined the body, and with his certificate to this effect there will be no need to hold an inquest.

Captain Smith who acted as jailer at the provincial prison used by the city was apparently in good health. He was a man well over fifty years of age, and had had a varied experience all over the world as a seafaring man in charge of large sailing vessels and steamships. Born in England, the captain had a more intimate connection with Australia than with the old country. His nearest known relative is a son who is believed to be engaged in the hardware business in Melbourne, Australia.

Only the other day while looking over some newspapers which he had received by mail from his son, Captain Smith mentioned that he intended to return to Australia before long, if some investments of his in this city turned out profitable.

BOAT BLOWN ACROSS LAKE.

Nelson, June 17.—With the populace of Ainsworth as spectators a thrilling drama was played on the lake when a vicious squall descended from the mountain, "taking off" from the bluff and striking the water about a mile from shore. Mr. Dumas, jr., and two women were in a rowboat about a mile from shore when the water was disturbed. Fearing the craft would be swamped D. Whellar put out in his launch Karo II. The surf was 20 feet high on the opposite wall of the lake and it was impossible to effect a rescue. The small boat was buffeted badly and fortunately with the strong gale it drifted ashore striking a sandy spit. The occupants escape from being thrown overboard in the squall was miraculous.

TWO MEN BURIED BY CAVE-IN OF SEWER

Laborers Injured While at Work — Rescued With Difficulty

Vancouver, June 17.—While engaged in storm sewer work on St. Patrick's avenue, between Esplanade and the waterfront at North Vancouver, the deep ditch caved in on two Italian laborers. They were rescued with some difficulty. Dr. Thompson, medical officer of the city, found one of the men suffering from a fracture of the right collar bone, while the other man had sustained a fracture of his left forearm. Both men were removed to the hospital.

DOMINION DAY AT NELSON.

Nelson, June 17.—At one of the best attended and most businesslike public meetings ever held in Nelson, at the board of trade rooms, arrangements were outlined for a two day celebration of Dominion day, on a larger scale than any of Nelson's long line of similar celebrations in the past. The dates observed will be June 30 and July 1—Friday and Saturday—and the first day will in all probability be given up to land sports, of which a most ambitious programme is outlined, while the present intention is to give up the Saturday exclusively to water sports, which will include launch club regatta and boat club regatta, culminating in the evening with a fete de nuit, or illuminated parade of all the craft on the lake. While the meeting was in progress W. S. Pearcy, captain of the boat club, received a wire stating that the crews the Vancouver boat club is sending up for the Dominion day celebration—the junior four, junior double and junior single—would arrive for Saturday.

LOCAL IMPROVEMENT.

Duncan, June 17.—The committee appointed to take active steps to carry out the resolutions and suggestions of the citizens' meeting met the other day for the further consideration of plans to be adopted. Mr. Dwyer was voted to the chair, and there were present Messrs. Price, Mutter, Peterson, Marsh, Rutledge and Kibler.

The first question brought before the meeting was, where the water for sprinkling the street was to be acquired and if from the water company, at what cost? Mr. Price, as one of the directors of the water company, said that if the matter were put before the company in the ordinary course of business, they would consider it, and the secretary was instructed to apply to the water company for a quotation.

A list of property owners on the streets proposed to be watered was drawn up and an estimate of contributions that could be reasonably levied on them, and it was resolved that a form of agreement be drawn up and a personal canvass made of those on the list and that they be requested to sign the agreement.

Other matters were discussed such as improving the appearance of the streets by tree planting along the sidewalks and a general periodical clearing up, after which the meeting adjourned.

RETURN OPEN VERDICT.

Kamloops, June 17.—The adjourned inquest on the body of the late Alexander Sinclair was held by Coroner Clarke. The evidence which was expected to develop was not forthcoming but what there was after being submitted to the jury would only warrant the following verdict:

"We are of the opinion that the body which we viewed was that of Alexander Sinclair, but how he came by his death, whether by accidental or other injuries, or drowning, there is not sufficient evidence to show, nor can we decide as to place or date except that it took place at or near Kamloops on or about April 21, 1911.

"The jury wish to press upon the crown attorney the absolute necessity of proper legal assistance being provided at all such cases as the present, at the same time putting upon record the care and painstaking work of both the police and coroner, who are equally handicapped and require this assistance in the interest of justice. The jury also wish to remind the crown attorney that a similar rider to a verdict was presented last year on the occasion when the jury were bound over to appear and be charged by the judge of the superior court."

FIRE AT VANCOUVER.

Vancouver, June 19.—A fire broke out early yesterday morning in an automobile garage in Georgia street, known as the Franklin garage, and in half an hour the big building was reduced to ruins, 40 automobiles being reduced to ashes. The damage is estimated at $120,000.

Hundreds of persons rushed from their homes when the cry of "fire" was raised, and the streets were filled with people in their night attire. The panic, however, quickly subsided when it was seen that no other building was threatened by the outbreak.

UNDESIRABLES DEPORTED.

New Westminster, June 17.—While the immigration officers in the Surrey district have almost stopped the illicit entry of undesirables into British Columbia from south of the line, individuals still manage to get across. An Italian, seeking to join his brother here, in an unauthorized manner, was captured near Huntingdon with a revolver. He was fined $45 and was surprised, after he paid the fine, to learn that he was to be deported. Two Greeks seized by Mr. Lawrence were fined $15 each at Cloverdale and escorted back to the States.

PROFUNDITY.

"How did that German philosopher become so celebrated as a leader of thought?"

"He invented a word of which nobody but himself knows the exact meaning."

LADYSMITH'S NEW GENERAL HOSPITAL

Large Number of Visitors Inspect Institution—Successful Linen Shower

(Special Correspondence.)

Ladysmith, June 17.—The new Ladysmith General Hospital was open for inspection on Thursday when the Ladies' Auxiliary gave their linen shower, and a great many visitors inspected the finished building. Nothing but praise was heard on all sides from those who walked through the light and airy rooms and spacious corridors.

The building contains reception hall, office, men's and women's public wards, semi private, private and maternity wards, delivery room, matron's dispensary, linen closets, nurses' kitchen and pantry on the ground floor, as well as one of the most completely furnished operating rooms in the province, together with a doctor's dressing room, sterilizing, and recovery rooms.

On the second floor are the kitchen, butler's pantry, nurses' dining room, and matron's, head nurses' and nurses' bedrooms, also rooms for the cook and caretaker. The third floor contains seven large rooms as yet unfinished. Six complete bath and toilet rooms are furnished with white enameled fittings, as is also the operating room.

The wards are furnished with regulation white enamel cots, white enameled chairs and glass-top tables. Steam heat, electric light and sewerage systems have been installed. The floors are oiled and the corridors laid with green cork linoleum.

The entire furnishing of the hospital was done by the Ladies' Auxiliary from collections and entertainments.

The City band was in attendance at the shower and from tea and ice-cream served and a great bag a very nice sum was netted.

DEATH RESULT OF ACCIDENT.

Vancouver, June 17.—The inquest over the remains of an unknown man, supposed to be a certain Swan Leon, which was adjourned for several days in order to get the evidence of the train crew, was brought to a close, when the jury decided that the deceased had come to his death while lying on the B. C. electric track at Fairview. None of the train crew knew anything of the accident, and although in the opinion of Dr. Jeffs the deceased had been run over and killed by the train, the death will probably remain a mystery. The evidence showed that the train crew's attention had been called to a hat which was found in front of the engine, when the train was stopping between Fourth and Fifth avenues. After reaching the station the crew had examined the motor and wheels of the engine, but no blood stains or anything else that would lead them to believe they had run over a man were found.

FIRE AT QUAMICHAN.

Duncan, June 17.—Fire destroyed the residence of H. W. Bevan, of Quamichan Lake. The fire apparently started between a small room over the kitchen and the roof.

The fire took hold of the building with such rapidity that very little was saved, and the loss is roughly estimated at about $15,000.

Some of the silver and Mrs. Bevan's jewellery were saved from the blazing building, but on the other hand some valuable articles that could not be replaced were destroyed. Amongst these may be mentioned a valuable old violin reputed to be by Klatz and estimated at the value of $4,000.

Are Your Kidneys Working Properly?

It Will Pay You Well to Make Sure

There's been a lot of "guessing" about rheumatism and rheumatic pains generally, but you can be dead sure that little pain across your back came from dereased kidney action.

The kidney's duty is to filter the blood—take out the impurities collected by the returning blood stream—do it just like absorbent cotton in a funnel filters the impurities from polluted water.

When the kidneys are not working you are bound for one of two courses—Diabetes and Bright's Disease or Rheumatism, Lumbago and Sciatica. The former course is usually fatal, and the latter always painful, but you need not have either, as they both can be easily prevented.

The very best prescription for all kidney troubles is Nyal's Stone Root Compound. It is no "patent" medicine, but a scientific prescription composed of Stoneroot, Buchu, Juniper and other remedies of proved value. More than that, it has been proved by thousands who have had glad relief from its use.

There's nothing quite so miserable as the dragging results of sick kidneys. You are trifling with your own future when you neglect so simple a precaution, as a pleasant home treatment with Nyal's Stone Root Compound when results are so certain.

It soothes bladder irritation, gives you rest and comfort at night, and makes life once more enjoyable.

The kidneys, liver and bladder are all dependent upon one another, and Nyal's Stone Root Compound is particularly designed to help them all.

Sold and guaranteed by D. E. Campbell, John Cochrane, Dean & Hiscocks, F. W. Fawcett, Messrs. Hall & Co., W. Jackson & Co., F. J. Williams, Victoria.

TRANSFORMING WESTMINSTER ABBEY

Decoration of Interior of Edifice Carried Out on Elaborate Scale

London, June 19.—All eyes are now turned to the fast approaching coronation with its series of regal and spectacular events, which culminate next Thursday with the actual crowning of King George V. at Westminster Abbey.

The decoration of the interior of the Abbey, which on this occasion is to be on the most elaborate scale, has been carried out by the office of works. The scheme is a strikingly brilliant one. Resting on the foundation of a splendid pile carpet of royal blue, into which are worked the emblems of the order of the Garter and other heraldic designs, the central figures of the historic picture are to be grouped in their gorgeous robes, the King in the Imperial mantle of cloth of gold worn by the late King Edward at his coronation in 1902. It was woven from plate-gold threads worked on silk, and as it hangs from the monarch's shoulders is fastened by a clasp in front and shimmers with brilliant effect in any light. It bears a design of laurel leaves, and is covered with emblems representing the imperial crown, the imperial eagle, the rose, shamrock and thistle, and also the lotus flower, representing India.

Several Indian and other princes in their multi-colored costumes will form part of the central group, which includes also the Sultan of Perak and the Sultan of Kedah, and the honorary Indian aides-de-camp of the King, including the Maharajahs of Idar, Gwalior and Bikaner, who, with the Gaekwar of Baroda, are among the special guests. The Indian deputation is restricted on this occasion owing to the King's intention to visit India latter on and hold an imperial durbar at Delhi.

The several ambassadors and envoys of those states and republics unrepresented by princes form an interesting group, together with delegations from the overseas British colonies. The latter include the prime ministers of Canada, Sir Wilfrid Laurier; of Australia, the Hon. Andrew Fisher; of New Zealand, Sir Joseph George Ward; of South Africa, the Right Hon. Louis Botha; and of Newfoundland, Sir Edward P. Morris.

Besides the foregoing the premiers of New South Wales, Tasmania, Western Australia, Victoria, New Brunswick, Ontario, Alberta, Manitoba Saskatchewan, British Columbia, Prince Edward Island and Quebec take their places, while the representatives of the Bahamas, Bermuda, British Honduras, Barbados, Bermuda, British Guianna, Ceylon, Hongkong, Jamaica, the Leeward Islands, Malta, Mauritius, the Strait Settlements, the Malay States, Trinidad and the Windward Islands complete the group.

The metropolis now appears in extreme gala attire. From early morning until late at night the streets are thronged with cosmopolitan crowds. Musical rehearsals are proceeding with full choir and orchestra for the ceremony in Westminster Abbey. No fewer than 450 voices compose the choir, drawn from every cathedral in England.

The week's programme includes a dinner at Buckingham palace, a dinner by the Duke of Connaught and a dinner by Sir Edward Grey, the foreign secretary.

STEEL BAR TRADE.

American and German Manufacturers Determined to Undersell British.

London, June 19.—A deputation representing the trade union workers affected by the stoppage of the steel works of the Ebbow-Vale Company was received by the managing director, Mr. Mills, last week. He stated that in the present year things had taken a serious turn owing to dumping. While 300,000 tons of steel bars had been dumped into Newport in the years 1908, 1909 and 1910 at the rate of dumping in the present year 1911 would show double the previous quantity. He had had conversations with prominent manufacturers of steel rails in America and Germany, and they had made it clear to him that at whatever price the manufacturers of this country were prepared to sell steel bars, they were determined to capture the trade by selling them at least $1.25 per ton less.

"Under these circumstances," said Mr. Mills, "it became an absolute necessity that the works should stop until better prices prevailed in the market." He had no intention of asking the workmen to accept any reduction of wages, for a 25 per cent. reduction would not meet the present difficulty. He anticipated that the works would stand idle for at least three months unless something extraordinary happened.

OPIUM SEIZED.

San Francisco, Cal., June 19.—Opium that would have commanded a price of between $6,000 to $8,000 in Chinatown, was seized by customs inspectors in a Chinese laundry wagon, where it had been concealed beneath soiled clothes. The Chinese driver, named Yee Fong, was driving innocently along the street when he noticed two inspectors on his trail. He thereupon whipped up his horse, but failed to escape. When overhauled the Chinese baskets yielded 185 tins of the drug, which the inspectors think was recently taken off a sailing vessel arriving from Mexican ports.

TO AMEND QUEEN'S UNIVERSITY CHARTER

Laymen as Well as Clergymen Will Be Eligible for Principalship

Kingston, Ont., June 19.—The separation of Queen's University from the Presbyterian church, which was decided on at the recent meeting of the General Assembly will involve the amendment of the university's charter by act of parliament. It is possible that this can be done at the present session of parliament.

The details as to how the new board of trustees will be constituted has not yet been fully worked out, though the change made in the constitution removes the denominational restrictions. The principal ones were that twenty-seven of the board of trustees of about forty had to be members of the Presbyterian church and that the principal had to be a Presbyterian.

The new plan approved by the assembly is as follows:

First, that the corporation of the university shall consist of the members of the board of trustees, the professors, the graduates and the benefactors.

Second, that the board of trustees shall be constituted as follows: The chancellor, elected as at present by the university council; the rector shall be elected by the students every three years, the principal, the minister of education for the province of Ontario, an assessor appointed by the minister of education, two members to be appointed by the corporation of the city of Kingston, one member from each affiliated college, six members in addition to the chancellor, six members to be elected by the graduates according to by-laws that have been, or may be, made for this purpose by the university council, four members to be elected by those benefactors who have contributed $100 or upwards to the endowment of the university, twelve members to be elected members. After the first election of these twelve members the board of trustees shall fill vacancies in this number by co-operation.

Third, that the position of principal should be separated from that of primarius professor of divinity, and that laymen, as well as ministers, should be eligible for it. The trustees are of the opinion that the best president for a modern university is not necessarily found among the ministry. The present denominational restriction forbids the trustees to elect a principal outside the ranks of the Presbyterian clergy. The removal of that restriction, while leaving the clergy still available, would make it possible to select any other, if a more suitable man should be found elsewhere.

Fourth, that the theological faculty of the university shall be known as "Queen's College" and shall be governed by the General Assembly of the Presbyterian church in Canada; five of its trustees to retire annually, and to be eligible for reappointment. Until the appointment of the board of management by the General Assembly, the faculty of theology shall be governed by the board of trustees of the university.

USE OF SAFETY MATCHES.

New York, June 19.—The declaration by experts that it would be almost impossible for a woman with a baby in her arms to use a safety match has held up the proposed regulations prohibiting the use of matches containing white phosphorous in New York. All the experts agreed that it would be necessary for a person to use both hands in lighting the safety matches. In support of safety matches the bureau of combustibles submitted warrants to show that there were 100 New York fires caused in 1910 by the use of matches containing phosphorous.

Surprising VALUES

HEAD OF MORMON CHURCH MUST TESTIFY

Committee Investigating Sugar Trust Will Not Accept Excuses

Washington, D. C., June 19.—Joseph F. Smith, of Salt Lake City, head of the Mormon church, must come to Washington to testify before the House committee investigating the so-called sugar trust regarding the connection with the Utah-Idaho Sugar Company. Replying to a message from Mr. Smith saying that an attack of rheumatism and business obligations would prevent his appearance here, Chairman Hardwick, of the committee, Saturday night sent this ultimatum:

"Committee has determined to have your testimony; the only question left is, will you come on the 22nd without subpoena, or shall we send an officer to serve you? Please answer at once."

In his message to Mr. Hardwick, the head of the Mormon church said:

"The sugar industry in Utah and Idaho is one of the great blessings to the people of those states. The men in management are capable, honest men, any one of whom can give you all the information that I can, and more, in regard to the details of the business.

"I am always willing to give evidence in any business with which I am connected, but my obligations here make it exceedingly difficult, if not impossible, for me to reach Washington by the 22nd.

"John H. Smith, one of the presidents of the church, a director and member of the Utah-Idaho Sugar Company, is now in the east and could without expense to the government, meet your committee and answer any questions possible for me to answer.

"Besides all this, I am suffering with sciatic rheumatism, and am in no health to go to Washington."

When advised that the committee would insist upon his presence, President Smith Saturday evening sent a second dispatch to Chairman Hardwick in which he said that he would go to Washington as soon as the proper papers were served and the condition of his health would permit.

Beyond the fact that such a telegram had been sent, President Smith refused to make any statement.

REBELS LAY DOWN ARMS.

Men Who Hoped to Establish New Socialist Commonwealth March Out of Mexicali.

Mexicali, L. C., June 19.—Sixty men all that remained of the Magonistic warrior band that numbered 300 two months ago, accepted $600—$10 each—from Madero Saturday as the price of peace, laid down their arms and marched over the border into Calexico.

With their leader and alleged chief source of supply, Richardo Flores Magon, a United States prisoner in Los Angeles, the so-called liberals, who had hoped to establish a Socialist commonwealth in Lower California, lost heart and the town is now in the hands of Madero's lieutenants.

The surrender which ended the revolution in Lower California was accomplished without ceremony and without delay. Senor Gallegos, who had headed a party of Maderistas that took the field last week, entered Mexicali, accompanied by envoys representing Francisco I. Madero, jr. The disheartened insurrectos agreed to lay down their arms, and they were given $10 each. They then formed in column and marched out of the town and across the international boundary, where United States Immigration Inspector George Webb and his assistant, Gernaro Gonzales, examined them and turned such as were American citizens over to the city marshal of Calexico.

This officer and his deputies escorted the ex-rebels two miles north of Calexico and started them northward with instructions to keep moving.

Telephone messages were sent to the authorities of El Centro and other towns in Imperial county to see that the wandering band did not stop. Steps have already been taken to repair the damage wrought by the liberals since they took Mexicali last January. Workmen were sent out to reconstruct the burned bridge of the Inter-California railroad, so that a large crop of sugar beets may be moved to refineries. Telegraph lines are being restrung.

"LITTLE BLACK DEVILS."

Ninetieth Regiment Receives Permission to Wear Crest Emblematic of Pet Name.

Winnipeg, June 19.—It will interest the many former members of the 90th battalion, Winnipeg, now living on the Pacific Coast to learn that Col. O'Grady has announced that permission had been received from the militia authorities at Ottawa for the 90th to wear as collar badges a crest emblematic of the name given them by the followers of Riel during the late rebellion. A notable feature in connection with this is the fact that this is the only regiment in the British empire ever named by an enemy on the field of battle and the apparent compliment of the rebels was at once recognized by Gen. Middleton, who always referred to the regiment afterwards as "little black devils," the name by which they are generally recognized throughout Canada.

SPAIN'S ACTIVITY IN MOROCCO.

Madrid, June 19.—Spain has sent to France a memorandum in which the military occupation of El Araish and Alcazar by the Spanish troops in Morocco is justified and explained from the Spanish standpoint.

Paris, June 19.—A dispatch to the La Patrie from Tangier says Spain has concentrated 10,000 men with an enormous quantity of war matreial at Cadiz for use in Morocco should occasion arise. The force now occupying El Araish is to be increased to four thousand men.

TRAGIC INCIDENTS AT CORONATIONS

Pages From the Past in the Crowning of England's Kings

There is material enough available for anyone who takes the trouble to find it for a book entitled "Curiosities of Coronations," and at the present time many of the unusual incidents connected with the crowning of British Kings and Queens are finding their way into print. It would almost appear that something untoward should be expected on these occasions, the postponement of the coronation of Edward VII. because of his illness being the instance that will most readily occur to us. It is also recalled that in the coronation of Queen Victoria a blunder was made in the size of the ring that was pressed on her finger. It was several sizes too small and the young Queen nearly fainted with the pain of the operation. After the ceremony the attendants had a difficult job in removing it, for the swelling of the finger threatened to make a surgical operation necessary.

Ill-omened was the coronation of Charles I. The day happened to fall on the date of the Feast of the Purification, and in recognition of the occasion the King discarded the usual purple and appeared in white robes. White has always been considered unlucky for British sovereigns, though for what reason we are not informed, but the people were aware of the superstition and many wise old heads were wagged as the graceful figure in white appeared. Another ominous incident was the breaking of the wing of the dove on the old sceptre, and a third was the grounding of the royal barge in the river. Eventually it was got to the wrong wharf. Here were portents enough without the earthquake that was recorded that day. Those who did not mark them all at the time were prompt to recall them when the King was executed. Wise after the event, they interpreted the incidents as being a series of divine warnings against the coronation of Charles Stuart. At the coronation of George III. a large diamond fell from his crown just before the ceremony, and fifteen years later, when the American colonies revolted, the incident was remembered as foreshadowing the loss to Great Britain.

What her Protestant subjects had to expect from her was very plainly indicated by Queen Mary at her coronation. She was to have been anointed with some oil that the Virgin Mary had given to St. Thomas of Canterbury, but fearing that the unction might have lost some of its efficacy in the meantime, a fresh supply was forthwith consecrated. Then, when the Queen was to take her seat on the coronation chair, she refused to do so on the ground that it had been desecrated by her Protestant brother Edward, and another which had been blessed by the Pope was provided for her. Her half-sister, Elizabeth, had some difficulty in getting crowned owing to the religious warfare of the time. The See of Canterbury was vacant; the Primate of York refused to read the Litany in English, and eventually the Bishop of Carlisle consented to officiate. The entire proceedings were fraught with misunderstandings, due to the change from the old Roman Catholic order of procedure to the Protestant. Elizabeth consented to kiss the wafer, but would not further follow the old formula.

Some incidents at the coronation of William and Mary as joint sovereigns recalled the crowning of Elizabth. Again there was a change in the formula, and for the first time in history a crowning was officially approved by parliament. Here for the first time, too, the coronation oath protested against the doctrine of transubstantiation, and for the first time since the coronation of Edward VI. a copy of the English Bible was used in the ceremony. The contrast between the tall queen and the short king is said to have amused the frivolous on that occasion. There were in the abbey, however, gentry on business bent, and one of them succeeded in picking William's pocket. Thus his frugal intention of making a present of twenty guineas to the officiating clergy was frustrated. William was crowned by Compton, Bishop of London, and Mary by Thomas Lamplugh, Archbishop of York. The Primate of All England refused to appear because William claimed the crown by act of parliament and not by hereditary descent.

On two occasions coronations were marred by tragic incidents. The first was when William the Conqueror was crowned, and the people set up joyous shouts. The Norman guards misunderstood the outcry and fearing a Saxon attempt on the king's life, they charged the crowd and slew hundreds. The spectorors having been thus removed, the crowning went on before an almost empty building. The coronation of Richard the Lion Hearted was attended by a slaughter of the Jews. Though ordered to keep a way from the abbey, many of them attended bearing rich gifts to the king. The superstitious observed a bat hovering about the king's head, and, blaming the Jews for the portent, the populace set upon them and killed many. The massacre spread from London and hundreds of Jews throughout England were butchered.

WILL HUNT IN WEST.

New Haven, Conn., June 19.—Harry Whitney, the hunter, who was with both Cook and Peary in the Arctic regions, has started for Alaska and the Canadian Rockies with Frank Carnegie, nephew of Andrew Carnegie. He has abandoned his plans to head a South Polar expedition this fall.

MURDERED IN CABIN.

Portland, Ore., June 19.—The body of Alexander McNabb, living in the mountains near Roseburg, was found dead in his cabin Saturday, partially incinerated, with his skull crushed and contents of the cabin rifled. There is no trace of the slayers. The murder is believed to have been committed last Tuesday night.

INTERNATIONAL HYGIENE EXHIBIT

Thoroughness is Keyword of Educative Fair—How Temperance is Taught

"Thoroughness" is the word most applicable to the International Hygiene Exhibition which has just been opened at Dresden by the King of Saxony. It is another fine example of that German "Grundlichkeit" which has already won so many notable victories over "Rule of Thumb" in all four quarters of the globe. There is no meretricious ornamentation, no unseemly competition of rival exhibitors, no distracting side-shows. Everything is subordinated to the purpose of the exhibition—a survey of human effort to maintain and promote the health of the race.

For Englishmen at the present time one of the most interesting sections is that illustrating the Imperial system of workmen's insurance in the German Empire. In addition to the models, tables and illustrations supplied by the insurance department, we have the exhibits of sick funds, of voluntary insurance organizations and organized trades. Dr. Kaufmann, the president of the Imperial department, and his officials have given of their best to make this section a striking educational piece of work. The walls are hung with geographical maps of German states showing the frequency and nature of accidents before and after the introduction of state insurance. Other series of maps illustrate the development of sick, invalidity and old age insurance. Most interesting are the large photographs of protected machinery for the prevention of accidents, those parts intended for protection being marked with red lines. In the corners and scattered about the rooms are admirable plaster casts of laboring men and women, all of them evidently selected for their fine human grace and their air of dignity. As shown in these models there is nothing sordid about labor. The jocund haymaking girl and the grim furnace-man are both to be admired and loved.

Probably the most interesting exhibits in this section are elaborate models of hospitals, sanatoria and convalescent homes which have been built either out of the state insurance funds or by the voluntary organizations. We have already read the somewhat dry statistical details of the millions of marks spent on these objects, but when we have the models before us, when we see these rooms full of the representations of palatial establishments, of delectable homes in sheltering forests or on breezy mountain side we realize better what it all means to the workers of this country.

But probably the most instructive model in this department is that of the consumption sanatorium at Wasach, in Wurtemberg. It goes without saying that architecturally the buildings are most imposing. The foothills of the Alps in the background lend a striking beauty to the place. In the foreground there are spacious lawns, divided into six sections, a section for each year since 1904. Each section of law has been filled with tiny lead figures of men and women in two divisions—one division showing the number of incurables at the end of the year, the other showing the number of those restored to health. In the corner of each division of lawn there is a small group of iron crosses standing for those who have succumbed. The incurables are represented leaning on crutches as they leave, the restored are dancing with joy and flourishing their scythes and hammers and axes as they go forth again to their labors.

The strength of the German movement against alcohol is well illustrated by a subsection devoted to the advocacy of temperance. The national beverage receives very hard knocks, and the advocates of beer as "fluid bread" are left with not a leg to stand on. There is only space for one or two illustrations of the exhibits. Is beer nourishing? asks a huge wall placard. Take an ordinary glass of beer which costs a penny. The nutriment in this quantity is equal to that in six grammes of lard, or 25 grammes of bread, or three pieces of lump sugar, or one tiny cup of milk. The lard, the bread, the sugar, and the milk are all placed before the visitor. Now for one penny you may purchase 55 grammes of lard, or 500 grammes of bread, or 200 grammes of sugar, or three glasses of milk. And here again we have these quantities on plates and in glasses, and the contrast strikes the stupidest. Besides, the glass of beer contains ten grammes of absolute alcohol, and this is rank poison.

You are told that 29 per cent. of the weak-minded children of Berlin are in this state because of the intemperate habits of their parents. You have striking tables showing how the use of alcohol lowers the working power of the body. In Leipzig every 100 drinkers have 123 cases of illness a year, while the temperance workers have only 49, or a proportion of five to two. We have two striking rows of pictures in illustration—a top row of five beds in which are five patients with staring and bloodshot eyes and terrorized visage, and a lower row with two beds occupied with respectable persons of old age. Statistics laboriously collected by Professor Demme show that in selected groups of ten families of temperate habits only 18 per cent. of the children either die early or are abnormal or degenerate, whereas in other similar groups, where the parents drink, the proportions are almost exactly reversed. In the anatomical department we have gruesome wax models of alcohol saturated livers, kidneys, hearts, and stomachs, and on the walls pictures of inebriates suffering from delirium tremens. There is no vestige of teetotal fanaticism about this section, no ill-balanced appeals to one's feelings. Science holds sway everywhere, and only the inexorableness of the photographer and the statistician come to its aid.

ALASKA PIONEER DEAD.

Nome, Alaska, June 19.—William S. McCray, proprietor of the Northern railroad, a former councilman of Nome, and one of the best known men in the North, died here Saturday following a paralytic stroke. He was a brother-in-law of J. D. Thaggard, of Seattle.

OBITUARY RECORD

Mrs. Helen Curtis, aged 80, widow of Wm. Curtis, passed away at the family residence, 1184 Fort street, this morning. Deceased was a native of Scarboro, Ont., and had been a resident of this city for the past twenty years. Her death will be mourned by a wide circle of friends. Four children, A. Y. Curtis of this city; Mrs. H. K. Prior and David Curtis of Seattle; and Thomas Curtis of Portage la Prairie, Man., survive. The funeral, arrangements for which are being made by the Hanna Undertaking Company, will take place from the house on Wednesday at 2.30 p. m., Rev. Dr. Campbell officiating.

The death occurred at the Jubilee hospital last evening of Andrew William Brown, aged 40. He was a native of Scotland and had been residing in Sidney for the last few years. A widow and family survive. The remains have been removed to the B. C. Funeral Furnishing parlors and will be forwarded to Sidney to-morrow for interment.

The death occurred at the Jubilee hospital this morning of David Jeffrey, aged 43, a native of Workington, Cumberland, England. Deceased was an engineer and had lived in Victoria for about ten months. A wife and two children, a boy and a girl, survive. The remains, which have been removed to the Victoria Undertaking parlors, will be interred in Ross Bay cemetery under the auspices of the 'Longshoremen's union, at a date to be announced later.

—The British Ship Arctic Stream arrived in port last night, fifty-seven days out from Caleta Colosa. She will load lumber at the Puget Sound mill for Africa.

—The Knights of Pythias held their decoration day service yesterday. The city band attended.

GEODETIC SURVEY OF PACIFIC STARTED

Charles A. Biggar in Victoria Organizing Parties to Carry Through Work

Charles A. Biggar, of the geodetic survey of Canada, is in the city for the purpose of organizing observing parties to carry the work of the survey up the Pacific coast from the vicinity of Victoria. A geodetic survey is made for the purpose of establishing geographical positions to be used for co-ordinating the maps of geological, geographical, topographical, or other surveys carried on in isolated sections of the country.

The triangulation, by means of which this section of the geodetic survey is made, will start at a base line in the valley of the Fraser river having a length of seven or eight miles. From this base line the triangles are expanded to the south of Birch Point and to the north to Little Mountain in Vancouver; and from thence west across the Gulf of Georgia, connect with a system of large triangles resting upon Mount Douglas, Mount Constitution, on Orcas Island, in the United States; Mount Bruce on Salt Spring Island; Mount Benson, near Nanaimo; a mountain on Bowen Island; Mount Sheppard, on Texada Island, and thence on up the coast through four, five and even six-sided figures of dimensions similar to those described.

Heretofore geographical positions of a precise nature have been established in Canada by means of astronomical observations, both tedious and expensive. A geodetic survey will produce results of equal accuracy in connection with a large number of stations throughout the country, and the object of this survey on the Pacific coast is to enable surveyors carrying on work in isolated sections to co-ordinate their maps by referring them to the nearest geodetic station.

The figures within the stations mentioned comprise the primary triangulation; their angles will be observed by Mr. G. H. McCallum. Many other stations on the islands and mainland forming figures subsidiary to the above will be occupied with accuracy of a secondary degree for the purpose of determining the latitude and longitude of all lighthouses or other objects of a permanent nature not reached from the primary stations. This branch of the work will be carried out by Mr. H. M. Lamb, one of the assistant professors of McGill University.

The utility of a geodetic survey is gauged by the number of geographical points established. The results of the present season's work will be available for public use in 1912.

The work of the survey is going on at various points throughout Canada—the observing parties are in the field in the Maritime Provinces, in Ontario and along the international boundary west of Lake Superior.

The majority of the instruments used by the Canadian geodetic survey are of special form and have been constructed in England from plans designed by an official of the survey.

HUDSON'S BAY CO. BUYS STORE SITE

GREAT REALTY BOOM RESULTS FROM DEAL

Company Will Erect Departmental Store of the Most Modern Type

One of the greatest booms the realty market in the city of Victoria has experienced took place during last week as a result of the huge deal confirming the intention of the Hudson's Bay Company to locate a departmental store, of the dimensions and calibre associated exclusively with their name, in the city. Immediately the company clinched their own bargain other parties who were cognisant of the impending deal and were basing their calculations upon its successful culmination took action, as a result of which some of the biggest individual, and certainly the biggest collective, deals that have ever taken place in the city were transacted, as already recorded in these columns.

The particular thoroughfare which met this speculative onslaught was Douglas street, owing to the fact that the Hudson's Bay decided to purchase the site of the present St. John's church, which occupies a prominent location on the street. Although the exact figure is wrapt up in mystery it is understood that the price paid for the property was in the neighborhood of $225,000.

Information of the great deal which means so much for the future of the city came from Vancouver late on Saturday and immediately on receipt of its confirmation the market underwent a spell of unprecedented activity. T. R. Cusack and R. L. Drury were the parties from whom the property was bought, and Messrs. Grant & Lineham negotiated the deal.

In order to give some impression of the company's intentions in regard to the projected store it may be stated that the land purchased has a frontage of 240 feet on Douglas street, and 120 each on Fisguard and Herald streets, and it is intended that the store shall occupy the whole site. That this magnificent structure will add greatly to the commercial and architectural importance of the city goes without saying. The coming of the Hudson's Bay Company in such a manner is a compliment to the city, and doubtless the city will prove that it is deserved.

Although the final announcement of the company's intention to come here will be received with pleasurable surprise by most people the fact that they have been angling for property in the city for some time past was common knowledge among business men. Several months ago the property was acquired by the vendors and shortly afterwards the company took an option on it.

As a result of the sale property to the aggregate value of nearly two million dollars has changed hands. Douglas street was immediately made the centre of a great rush of business and many large deals were put through. Property which a few weeks before could have been had for say $25,000, went to $100,000 and found ready purchasers at that, too.

No definite information is to hand regarding the type of store which the company will erect on the site, but it is generally believed that it will vie with anything of its kind this side of Winnipeg. The site is an ideal one, and that Victoria will be favored with a structure of colossal modern type is the belief of all who have the interest of the city at heart.

—See J. N. Harvey's ad. on page 11.

BULLOCK TELLS STORY TO COURT

DID NOT LIKE RECEIPT OF SO MUCH NAVY STUFF

Says Spratt Told Him It Was All Right—Interviews Had With Him

Testifying that while he was employed at the Victoria Machinery Depot as purchasing agent goods in large consignments, consisting of candles, rubber, brass, iron and paint were taken at night to the Victoria Machinery Depot of which he knew nothing and which he had not ordered, Frederick Bullock occupied the witness stand in the police court for an hour to-day, answering questions of Hon. C. E. Pooley, K. C., who examined for the prosecution.

Part of Bullock's duty as storekeeper was to pass invoices and he said candles were bought in boxes bearing the name Shearwater, for which $4.50 per case was paid. Paint was bought at $2 per tin; rubber at 60 cents per pound, and copper at 10 cents per pound. The rubber, said witness, was of very superior quality and he could not purchase it in Victoria. He would have been glad to get it at $3 per pound.

Spratt and Houston, said witness, had told him the goods were all right; that they had been getting them right along and had to purchase them because the people from whom they were purchased brought and sent work to the machinery depot.

"In September last year Day came to the depot and I sent him to Houston as I did not want to have anything to do with goods I knew nothing about. The next morning there was a large consignment of paint and candles lying at the storeroom door. Houston told me they came from John Day and to get them put away as quickly as possible. There was about a ton of paint, and 20 to 40 cases of candles. They came in between 6 p. m. and 7 a. m."

Witness added that he held up Day's invoice and would not pass it till Houston told him to do so. He told Spratt he did not care about it and Spratt said he would see Houston, who finally told him to pass it. Every time these goods came in he spoke to Spratt about it, who said he had to take the goods; it was all right anyhow; they had to take the goods and they had been doing it right along for years.

There was a consignment from the Egeria last January of 160 pounds of sheet rubber, 300 pounds of copper and sheet brass, and 700 pounds of bar iron. Bullock said he refused to open the case and Houston did it and brought him back the figures. The goods were brought there by a carpenter's mate named Reid from the Egeria. He told Spratt it was navy stuff and there would be trouble.

"I told him we could go into the market and get lead at the price we paid for the lead and paint. The paint was always stored up in the paint house. As buyer I was never told to go to navy sales and never did so. Mr. Spratt is president of the company and Mr. Houston a director and superintendent.

"I have seen the names of the Algerine, Shearwater and Egeria on the candle boxes at the works. These candles were used all the time. The order came to me through the foreman of the job. When I left there last March there would be 20 cases stored under the stairs and quite a lot upstairs, altogether forty to sixty cases. They would not have used a tenth part of them from that time till the time of seizure. There were also a few boxes of double wick candles and I believe I sold a few to the Boscowitz Shipping Company. They were marked Shearwater on the case."

He took the cases in court from the depot for evidence. Since he left the company he was charged with stealing a roll of canvass. It was brought up in that court and was withdrawn. Mr. Spratt and John Day had approached him with negotiations to settle this case.

"The day after the withdrawal of the police court case," continued Bullock, "Spratt told me to come to the depot between 12 and 1 p.m., when no one was there. Here Spratt said he would arrange for me to work at Bullen's and pay the costs of the case and any damages I thought right. He also invited me to go to Seattle with him, but I did not go. I went to his office a second time, when he said he was going to make Day pay it. He asked me to write a letter which he dictated, saying he would pay $150 if I would withdraw all charges. I refused to sign it and referred him to Fred Peters, K. C. He asked me to go there again at 4 o'clock, and there I was abused and threatened and advised to leave the country. The evening of the day of the first adjournment of the case against me Day came to see me, and he begged me to keep my mouth shut and leave town."

Mr. Taylor stopped the witness at this point, Day's case not being before the court at present.

"I met Spratt immediately after with Day, and Spratt suggested I'd be better off somewhere else, and advised me to leave the country," continued Bullock. "I was with Spratt till 1 a.m., and then went home. Since this prosecution started Spratt and I have had no conversations.

To Mr. Taylor—There were not many of these circumstances. My resignation was caused by the irregularities. I did not apply to go back.

Bullock denied having asked Dr Bechtel for $750 to get out of town. "On the other hand," said Bullock, "Dr Bechtel asked him to let the physician take the matter up with Mrs. Spratt, and later suggested the matter was all right. He had gone to Dr. Bechtel for medical advice and has received no bill. On the second visit there was talk by Dr. Bechtel of straightening the matter up. I told him I did not want to be vindictive. There was always talk about money."

The witness called to the attention of the court that Dr. Bechtel and his father were in court, and if they were to be called as witnesses they should be out of court.

Witness said to Bechtel at one interview that Spratt could have saved his $1,000 fine if he had seen Mr. Peters, and told the court that Bechtel had offered him $750 to get out of town. He was worried to death with people coming to him to settle it. He had looked in every room at the doctor's house at the interviews and was sure the conversations he had there could not be overheard.

Mr. Taylor read from a statement remarks that were suggested to have occurred in conversation with Dr. Bechtel and taken down secretly by a stenographer concealed in the next room. In denying that he had asked for $750 as a settlement the witness said Dr. Bechtel had said he would not hand any money to any one, but a suggestion was made that it could be thrown on the floor. Witness admitted to Mr. Taylor he would have taken the money had it been thrown on the floor. He denied he had asked that the money be placed in an envelope and left inside his door by another party, but maintained that the suggestion had been made by Dr. Bechtel. Witness said he thought anyone would be ready for an insane asylum who would not take money thrown on the floor for him.

His cross examination is being continued this afternoon.

Robert G. Grant, a sailor and painter from the H. M. S. Shearwater, said it was unusual to mix yellow and black paints, for they would give a dirty color. Hon. C. E. Pooley released the witness after asking the one question, saying: "That's all I have to ask you." Mr. Taylor said he had not even that much to ask, and Mr. Pooley said: "We want to know why you mixed yellow and black paints."

"We are not giving away our trade secrets to you," replied Mr. Taylor.

Provincial Constable Dennis G. Cox said he executed a search warrant at the Victoria Machinery Depot on May 6 last and seized certain tins of paint, 7 in number, already produced in evidence. With Captain Vivian, on May 8 he made another search and found exhibit No. 16, a piece of rubber. With him was Petty Officer Doddridge of H. M. S. Shearwater, who identified the paint. Mr. Spratt was there and did not seem to know much about it. He gave directions to the men employed there to assist the officers.

Provincial Constable Booth and Detective Carlow told of accompanying Constable Cox when one of the seizures were made. Detective Carlow told specially of a seizure of candles when Bullock and Houston were both present, and the latter accused Bullock of having put the candles in the place where they were found. Bullock replied that he had not put them there.

Reginald Hetherage, formerly employed at the Victoria Machinery Depot, could not identify the candle boxes in court as those similar to boxes at the depot in which he had seen candles.

VICTORIA TOT DROWNED.

Seattle, Wash., June 19.—Beatrice Merrifield, the 22 months old daughter of Mr. and Mrs. Chester Merrifield, who recently arrived from Victoria, B. C., toddled away from her mother's side and walked off the platform of a houseboat on Lake Washington yesterday and was drowned. Not a sound of any kind warned the occupants of the houseboat of the infant's drowning. Burial will take place in Victoria.

MAN'S BODY FOUND AT HORSESHOE BAY

E. Townsley Makes Discovery While Taking Walk Sunday Morning at Beacon Hill

The body of a man, whose name is at present unknown, was found lying on the sands of Horseshoe Bay, below Beacon Hill park, yesterday morning at 10.30. The discovery was made by E. Townsley, 636 Simcoe street, who while walking along the foreshore saw the body on the sand.

When discovered it was lying fully dressed and face down. Mr. Townsley telephoned the police station and Constable Ireland, accompanying the police patrol, brought the body to town. It is now at Smith's undertaking parlors.

The deceased will probably be identified to-day, as police constables say his face is well known to them although the men on duty this morning who had seen the body had not identified it.

Among deceased's effects was a club card issued in South Africa but bearing no name. Deceased is a man about middle age.

An inquest is being held this afternoon by the coroner, Dr. E. C. Hart.

The police believe the man died from drowning although there is a suspicion that death may have been due from other causes because of a wound upon the forehead.

PROCESSION ORDER FOR CORONATION DAY

Where Various Units Will Form Up and Route of Parade

What will be the most pretentious procession ever seen in this part of the Dominion will be the coronation parade on Thursday next, upon the details of which a committee under the chairmanship of Chief Langley has been putting in a great deal of time and care.

The procession will start from the corner of Fort and Douglas streets at 2.30 p. m. All those who are taking part are requested to assemble at the place assigned to them at 2 o'clock and to be ready to fall in at 2.15. The procession will proceed north along Douglas to Johnson street, down Johnson to Government, south along Government past Parliament Square to Beacon Hill park, via Superior street, saluting His Honor the Lieut.-Governor at a given point in Beacon Hill park and then dispersing.

The order of procession, with the meeting place for each unit and the position it will take, is finally settled as follows:

No. 1—Decorated autos, carriages and vehicles.

No. 1a—Mayor and corporation of Victoria in carriages. Mayor and representatives of Nanaimo in carriages. These will form on the east side of Douglas street, between Fort and Humboldt.

No. 2—Piper's band, with the British Campaigners and Imperial Order of Veterans, on Broughton street, west of Douglas.

No. 3—Allegorical float, "Britannia and Peace," Broughton street, behind No. 2.

No. 4—Float, "The Empire," Broughton street, behind No. 3.

No. 5—High School cadets, Broughton street, east of Douglas street.

No. 6—Float, "The Empire Builders," Navy League, Broughton street, behind No. 5.

No. 7—Twenty mounted ladies, "Latch Keys of Empire," Broughton street, behind No. 6.

No. 8—Sons and Daughters of St. George and float, "Secret of Britain's Greatness," Courtnay street, west of Douglas.

No. 9—Ancient Order of United Workmen, Courtnay street, behind No. 8.

No. 10—Float, "Canadian Provinces," Humboldt street, west of Douglas.

No. 11—Sons of England and float, "Britain's Supremacy on the Sea," Humboldt street, behind No. 10.

No. 12—Float, "Imperial Indian," Humboldt street, behind No. 11.

No. 13—Boy Scouts, 1st detachment, with brass band, Humboldt street, east of Douglas.

No. 14—Float, "Evolution of the Crown," Douglas street, south of Humboldt.

No. 15—Boy Scouts, 2nd detachment, with bugle band, sidewalk, Douglas street, south of Humboldt.

No. 16—Float, "Episodes of Canadian History," Douglas street south of Humboldt, behind No. 14.

No. 17—Boy Scouts, 3rd detachment, sidewalk, Douglas street, behind No. 15.

No. 18—Float, "Cradle of Empire," Douglas street, behind No. 16.

No. 19—Float, "Hudson's Bay Co.", Douglas street, behind No. 18.

No. 20—Float, "Rose Basket," Douglas street, behind No. 19.

No. 21—Independent Order of Odd Fellows, with float emblematic of their order, Courtenay street, east of Douglas.

No. 22 — Musical Societies' float, "Music," Belleville street, west of Douglas.

No. 23—Sisters of St. Ann, float, "The Call of the West," Belleville street, behind No. 22.

No. 24—Pioneer and Native Sons Society and float, "Pack Mules and Miner's Ouhtfit," Belleville street, behind No. 23.

No. 25—Pioneer and Native Sons Society, "Miner's Camp Life," Belleville street, behind No. 24.

No. 26—Horticultural Society's float, "Floral Crown," Belleville street, behind No. 25.

No. 26a — Fifth Regiment band, Belleville street, behind No. 26.

No. 27—Ancient Order of Foresters and float, "Robin Hood and His Merry Men." The float is to be behind No. 26a, and members of the order on each side of the street.

No. 28—Ladies of the Maccabees of the World, with float emblematic of their order, View street, east of Douglas.

No. 28a — Band of Salvation Army, View street, behind No. 28.

No. 29—Float of Life Boat Association, View street, behind No. 28a.

No. 30—Float of Daughters of Pity, "Red Cross," View street, behind No. 29.

No. 31 — James Bay Athletic Association and float, "All Lines of Athletic Sport," View street, behind No. 30.

No. 32—Loyal Order of Orangemen and float emblematic of their order, View street, behind No. 31.

No. 33—Float, "The Flora of Victoria," Yates street, east of Douglas.

No. 34—City band, Yates street, behind No. 33.

No. 35—Fire Brigade, with entire new equipment, Yates street, behind No. 34.

MYSTERIOUS DEATH.

Body of Unidentified Man Found in Creek in Washington.

Colfax, Wash., June 19.—Mystery surrounds the identity and cause of death of the unknown man found in Pine Creek near Malden, May 26. Identification traced through laundry marks indicates the man is Hugh Richard Bennett of London, England, a former soldier and a son of wealthy parents, who have been sending him allowances, large amounts having been sent to him at Rosalie. Boys fishing in Pine creek under the Milwaukee bridge half a mile east of Malden, found the body in the water May 26. Coroner L. L. Bruning went to Malden to investigate and found nothing but laundry marked C. The description answered that of the man who had been around Rosalie and who had worked for John Bassock near Malden, being known as Dick. Mr. Bassock notified the officers that the man had gone, leaving his effects and had not returned. Coroner Bruning Saturday asked Deputy Sheriff Buxton of Malden, to search the effects at the Bassock ranch, and he found the laundry marked C., with papers which indicate that the man was also Hugh Richard Bennett who has drawn the money sent from England. One amount received is said to have been $500. The amounts were sent from London to the Whitman county state bank of Rosalie, and the cashier of the bank is searching the records of the bank for the London address.

A cable will be sent to the London relatives by Coroner Bruning. The body was buried at Pine City, after it had been held for several days for identification.

C. P. R. EARNINGS.

Montreal, June 19.—Canadian Pacific railway earnings for the week ending June 14 totalled $2,057,000, an increase of $155,000.

PERSIAN PREMIER FLEES.

Leaves Country When American Treasurer-General Is Given Control of Finances.

Teheran, June 19.—The passage by the national council on June 13 of a bill giving W. Morgan Shuster, the American treasurer-general of Persia, direct control of financial operations in Persia, had a strange sequel when Mustofi El Mammalik, the premier, quitted Teheran in haste, ostensibly bound for Europe. He did not resign the premiership and previously had given no sign of his intended departure. He merely wrote in a letter to the regent and the national council that he was obliged to depart for the sake of his health. The premier's action has excited derision. It is attributed to his loss of the support of the national council and his reluctance to submit to the rigorous financial control which the council has directed.

WATCH THE LICE

Now that the hot weather is here this is the time to look after your chickens and poultry houses. Keep them free from flies and lice. We have for those pests Vermin Killer, 25c. per tin; Lice Killume, 50c. to $1.50 per can. Do not delay as this is most urgent to the poultry. Chickens cannot lay with such pests and live in comfort.
